Samedi, le 1er jour d'octobre 1904.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît au Gouverneur général en conseil de décréter que l'article 1 des règlements concernant la vente des terres fédérales contenant du pétrole établis par arrêté en conseil du 23 de mars 1904, soit et il est par le présent rescindé, et remplacé par ce qui suit :—

1. Toutes terres fédérales vacantes dans le Manitoba, les territoires du Nord-Ouest et le territoire du Yukon,

seront ouvertes à un individu ou à une compagnie qui désirera y prospecter pour du pétrole. S'il s'élève quelque différend quant à savoir si les terres sont vacantes ou non, la question sera décidée par le ministre de l'Intérieur, et sa décision sera finale. Pourvu toutefois que le Ministre puisse réserver pour un individu ou une compagnie qui a des machines sur le terrain à prospecter une étendue de 1920 acres pour la période qu'il décidera.

Cette étendue de terrain peut être choisie par le dit individu ou compagnie aussitôt que les machines auront été mises sur le terrain, mais la longueur de cette étendue ne devra pas excéder trois fois sa largeur ; toutefois, lorsque les circonstances du cas paraissent exceptionnelles le ministre de l'Intérieur pourra permettre que le choix soit fait dans des étendues d'au moins un quart de section, ou quart fractionnaire d'une section, qui résulte de la convergence des méridiens, dans chaque section affectée, et les divers lopins de terre choisis doivent être contigus.

Et si les travaux de quelque compagnie (constituée ou à être constituée légalement) doivent être déclarés comme étant d'utilité générale, cette intention sera spécifiquement mentionnée dans l'avis; et les postulants feront adresser une copie du dit avis, par lettre chargée, au greffier de chaque municipalité qui pourra être affectée spécialement par la construction ou l'exploitation des dits travaux, et aussi au secrétaire de la province dans laquelle les dits travaux sont ou pourront être situés; et une déclaration statutaire devra constater que cette formalité a été remplie par les postulants.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie Britannique, ou les Terri-

toires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district: autrement, elles se feront en anglais et en français au même journal.

Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de \$200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

SUSPENSION OF PROCEEDINGS.

6. The Board may require further information, or particulars, or documents from the parties, and may suspend all formal proceedings until satisfied in this respect.

If the Board, at any stage of the proceedings, think fit to direct inquiries to be made under any of the provisions of this Act, it shall give notice thereof to the parties interested, and may stay proceedings or any part of the proceedings thereon accordingly.

NOTICE.

7. Except in any case where it is otherwise provided, ten days' notice of any application to the Board, or of any hearing by the Board, shall be sufficient; unless, in any case, the Board directs longer notice. The Board may, in any case, allow notice for any period less than ten days, which shall be sufficient notice as if given for ten days or longer. (Section 31.)

Notice may be given or served as provided by Section 28 of the Act.

When the Board is authorized to hear an application or make an order, upon notice to the parties interested, it may, upon the ground of urgency, or for other reason appearing to the Board to be sufficient, notwithstanding any want of or insufficiency in such notice, make the like order or decision in the matter as if due notice had been given to all parties; and such order or decision shall be as valid and take effect in all respects as if made on due notice; but any persons entitled to notice, and not sufficiently notified, may, at any time within ten days after becoming aware of such order or decision, or within such further time as the Board may allow, apply to the Board to vary, amend, or rescind such order or decision; and the Board shall thereupon, on such notice to all parties interested as it may in its discretion think desirable, hear such application, and either amend, alter, or rescind such order or decision, or dismiss the application, as may seem to it just and right. 8. In all cases the parties may, by consent in writing, with the approval of the Board, dispense with the form of proceedings herein mentioned, or some portion thereof.

PRELIMINARY QUESTIONS OF LAW.

10. If it appear to the Board at any time that there is a question of law which it would be convenient to have decided before further proceeding with the case,

it may direct such question to be raised for its information, either by special case or in such other manner as it may deem expedient, and the Board may, pending such decision, order the whole or any portion of the proceeding before the Board in such matter, to be stayed.

PRELIMINARY MEETING.

11. If it appear to the Board at any time before the hearing of the application that it would be advantageous to hold a preliminary meeting for the purpose of fixing or altering the place of hearing, determining the mode of conducting the inquiry, the admitting of certain facts or the proof of them by affidavit, or for any other purpose, the Board may hold such meeting upon such notice to the parties as it deems sufficient, and may thereupon make such order as it may deem expedient.

PRELIMINARY EXAMINATION WITH THE PARTIES.

12. The Board may, if it thinks fit, instead of holding the preliminary meeting, provided for in Rule 11, communicate with the parties direct, and may require answers to such inquiries as it may consider necessary.

PRODUCTION AND INSPECTION OF DOCUMENTS.

13. Either party shall be entitled, at any time, before or at the hearing of the case, to give notice in writing to the other party in whose application, or answer, or reply reference was made to any document, to produce it for the inspection of the party giving such notice, or his solicitor, and to permit him to take copies thereof; and any party not complying with such notice shall not afterwards be at liberty to put in such document in evidence on his behalf in said proceedings, unless he satisfy the Board that he had sufficient cause for not complying with such notice.

NOTICE TO PRODUCE.

14. Either party may give to the other a notice in writing to produce such documents as relate to any matter in difference, (specifying the said documents) and which are in the possession or control of such other party; and if such notice be not complied with, secondary evidence of the contents of the said documents may be given by or on behalf of the party who gave such notice.

NOTICE TO ADMIT.

15. Either party may give to the other party a notice in writing to admit any documents, saving all just exceptions, and in case of neglect to admit, after such notice, the cost of proving such documents shall be paid by the party so neglecting or refusing, whatever the result of the application may be; unless, on the hearing, the Board certifies that the refusal to admit was reasonable; and no costs of proving any document shall be allowed, unless such notice be given, except where the omission to give the notice is, in the opinion of the Board, a saving of expense.

WITNESSES.

16. The attendance and examination of witnesses, the production and inspection of documents, shall be enforced in the same manner as is now enforced in a Superior Court of law; and the proceedings for that purpose shall be in the same form, *mutatis mutandis*, and they shall be sealed by the Secretary of the Board with the seal and may be served in any part of Canada. (Sec. 23.)

Witnesses shall be entitled, in the discretion of the Board, to be paid the fees and allowances prescribed by schedule No. 4, annexed hereto.

THE HEARING.

17. The witnesses at the hearing shall be examined *viva voce*; but the Board may, at any time, for sufficient reason, order that any particular facts may be proved by affidavit, or that the affidavit of any witnesses may be read at the hearing on such conditions as it may think reasonable; or that any witnesses whose attendance ought, for some sufficient reason, to be dispensed with, be examined before a Commissioner appointed by it for that purpose, who shall have authority to administer oaths, and before whom all parties shall attend. The evidence taken before such Commissioner shall be confined to the subject

matter in question, and any objection to the admission of such evidence shall be noted by the Commissioner and dealt with by the Board at the hearing. Such notice of the time and place of examination as is prescribed in the order shall be given to the adverse party. All examinations taken in pursuance of any of the provisions of this Act, or of these rules, shall be returned to the Court; and the depositions certified under the hands of the person or persons taking the same may, without further proof, be used in evidence, saving all just exceptions. The Board may require further evidence to be given either *viva voce* or by affidavit, or by deposition, taken before a Commissioner or other person appointed by it for that purpose.

The Board may, in any case when deemed advisable, require written briefs to be submitted by the parties.

The hearing of the case, when once commenced, shall proceed, so far as in the judgment of the Board may be practicable, from day to day.

JUDGMENT OF THE BOARD.

18. After hearing the case the Board may dismiss the application, or make an order thereon in favour of the respondents, or reserve its decision, or (subject to the right of appeal in the Act mentioned) make such other order upon the application as may be warranted by the evidence and may seem to it just.

The Board may give verbally or in writing the reasons for its decisions. A copy of the order made thereon shall be mailed or delivered to the respective parties. It shall not be necessary to hold a court merely for the purpose of giving decisions.

Any decision or order made by the Board under this Act may be made an order of the Exchequer Court, or a rule, order, or decree of any Superior Court of any Province of Canada, and shall be enforced in like manner as any rule, order, or decree of such court. To make such decision or order a rule, order or decree of such court, the usual practice and procedure of the court in such matters may be followed, or in lieu thereof the form prescribed in subsection 2, section 35 of the Act.

The Board shall with respect to all matters necessary or proper for the due exercise of its jurisdiction under this Act, or otherwise for carrying this Act into effect, have all such powers, rights, and privileges as are vested in a Superior Court. (Sec. 23.)

ALTERATION OR RESCINDING OF ORDERS.

19. Any application to the Board to review, rescind, or vary any decision or order made by it shall be made within thirty days after the said decision or order shall have been communicated to the parties, unless the Board think fit to enlarge the time for making such application, or otherwise orders.

APPEAL.

20. If either party desire to appeal to the Supreme Court of Canada from the decision or order of the Board upon any question which, in the opinion of the Board, is a question of law, he shall give notice (c) thereof to the other party and to the Secretary, within fourteen days from the time when the decision or order appealed from was made, unless the Board allows further time, and shall in such notice state the grounds of the appeal. The granting of such leave shall be in the discretion of the Board.

For procedure upon such leave being obtained see section 44, subsection 4, et seq. of the Act.

An appeal shall lie from the Board to the Supreme Court of Canada upon a question of jurisdiction; but such appeal shall not lie unless the same is allowed by a judge of the said Court upon application and hearing the parties and the Board.

The costs of such application shall be in the discretion of the judge.

INTERIM EX PARTE ORDERS.

21. Whenever the special circumstances of any case seem to so require, the Board may make an Interim *ex parte* Order requiring or forbidding anything to be done which the Board would be empowered upon

Affidavits of service according to the form No. 6 shall forthwith, after service, be filed with the Board in respect of all documents or notices required to be served under these rules; except when notice is given or served by the Secretary of the Board, in which case no affidavit of service shall be necessary.

24. The Board may, from time to time, adjourn any proceedings before it.

AMENDMENT.

25. The Board may at any time allow any of the proceedings to be amended, or may order to be amended or struck out any matters which, in the opinion of the Board, may tend to prejudice, embarrass, or delay a fair hearing of the case upon its merits; and all such amendments shall be made as may, in the opinion of the Board, be necessary for the purpose of hearing and determining the real question in issue between the parties.

FORMAL OBJECTIONS.

26. No proceedings under this Act shall be defeated or affected by any technical objections or any objections based upon defects in form merely.

INTERLOCKING SYSTEM.

RULES FOR SIGNALS AND SPEED OF TRAINS WHERE STEAM RAILWAY CROSSES ANOTHER AT RAIL LEVEL.

When the signal on distant semaphore post indicates *caution*, a train passing it must be under *full control* and come to a *full stop* before reaching the home post.

When the signal on the home post indicates *danger*, it must *not be passed*.

When the signals on the distant and home posts indicate *safety*, the train can proceed.

When clear signals are shown the speed of passenger trains must be reduced to *twenty* miles and freight trains to *ten* miles per hour, until the entire train has passed the crossing.

GENERAL STATEMENTS

Applicable to Steam Railways for Interlocking, Derailing and Signals System at Crossings at Rail Level and at Junctions.

The plan and construction of interlocking, signaling and derailing system to be used at rail level crossings and junctions of one railway by another must be arranged to conform to the following general rules:—

1. The normal position of all signals must indicate *danger*, derail points open and the interlocking so arranged that it will be impossible for the operator to give conflicting signals.

2. The derail points must be placed not less than 500 feet from point of intersection of the crossing of junction tracks, unless in special cases in which the Board authorizes in writing a less distance.

3. On side tracks the position of derail points may be located so as to best accommodate the traffic, and provide the same measure of safety indicated in foregoing rules.

4. On single track railways derail points, when practicable, should be on inside of curve and on double track railways the derail points should be in outside rail of both tracks.

5. On double track railways back-up derails will be necessary.

6. Home signal posts must be 50 feet beyond point of derail, and the distance between home and distant signals must be not less than 1,200 feet. Signal post should be placed on engineman's side of track it governs.

7. Guard rails should be laid on outside of rail in which the derail is placed and commence at least 6 feet toward home signal from point of derail, extending from thence toward crossing, parallel with and 9 inches distant from track rail, for 400 feet.

8. In case there are crossovers, turnouts, or other connecting tracks involved in the general system, the movements of cars and trains upon which present an element of danger, which danger will be enhanced by the passage of trains on main tracks over crossings without stopping, and consequently at higher speed than would be the case without the permit sought, then, and in all such cases, whether such enhanced danger be of collision between cars and trains of the same railway, or between cars or trains of different railways, it will be necessary, in addition to the protection of the main crossing, to provide by proper appliances against any such increased collateral dangers in the same complete manner as is required in the case of the main crossing.

9. The arms and back lights of all signals should be visible to the signal-man in the tower. If from any cause the arm or light cannot be placed so as to be seen by the signal man, a repeater or indicator should be provided in the tower.

10. Application for inspection of interlocking plant must be made to the Board accompanied by a plain diagram, showing location of crossing and position of all main tracks, sidings, switches, turnouts, etc.

The several tracks must be indicated by letters or figures, and reference made to each, explaining the manner of its use. The rate of grade on each main track must be shown, together with numbers of signals, derails, locks, etc., corresponding to levers in tower.

It is intended herein to state general rules, which will govern the construction of any proposed system of interlocking. The traffic to be done, relative position and operation of intersecting lines, may require safeguards not mentioned herein.

The system of derailing, signalling, and interlocking must be connected and worked and be complete in each particular before the Board will grant an order authorizing the operation of such interlocking, derailing, and signal system or the crossing by the railway ordered to put on the system.

General Requirements for Interlocking at Drawbridges.

Interlocking, signaling, and derailing system to be used at drawbridges must be arranged to conform to the following general rules:—

1. The normal position of all signals must indicate *danger*, derail points open and the interlocking so arranged that it will be impossible for the operator to open the draw until signals and derails are set against the approaching train movement.

2. Where the grade is practically level the derailing points shall be located not less than 500 feet from the ends of the bridge, but, in case of a descending grade towards the bridge, the derailing point must be located at such distance from the bridge as to give the same measure of protection that is required for a level approach.

3. On single track railways, derail points, when practicable, should be on the inside of curve, and on double track railways, the derail points should be in outside rails of both tracks.

4. On double track railways back-up derails will be necessary.

5. Home signal posts must, when practicable, be located on the engineman's side of the track they govern, and should be not less than fifty (50) feet nor more than two hundred (200) feet in advance of the point they govern, the distant signals should be located

not less than twelve hundred (1200) feet in advance of the home signal, with which it operates and on the same side of the track. The distance signal should be distinguished by a notch cut in the end of the semaphore arm.

6. The arms and backlights of all signals should be visible to the signal-man in the tower. If from any cause, the arm or light of any signal cannot be placed so as to be seen by the signal-man, a repeater or indicator should be provided in the tower.

7. Guard rails should be laid on outside of rail in which the derail is placed, and, commencing at least 6 feet in advance of derail, should extend thence toward the end of bridge, parallel with and 9 inches from track rail, for not less than 400 feet.

8. Application for inspection must be made same as for railway crossings. 22-3

(261) SOUTH COAST—BURGEO BANK—UNSUCCESSFUL SEARCH FOR 10-FATHOM PATCH.

Information has been received by the British Admiralty from Staff Captain W. H. Tooker, H. M. hired Surveying vessel *Ellinor*, that in June 1904 he made a prolonged examination of the Burgeo bank without obtaining any indications of the existence of the 10-fathom patch reported by the steamship *Lake Nepigon* in 1890, nor was the existence of such a patch known to the fishermen pursuing their industry in the locality. As the position of the *Lake Nepigon*, when this sounding was obtained, was somewhat doubtful, and as Burgeo islands were reported to have been seen at the time, it is probable that, if a 10-fathom patch exists, it must be much closer inshore. The 10-fathom patch now shown on the Burgeo bank has accordingly been expunged from the Admiralty charts.

(248) EAST COAST OF VANCOUVER ISLAND—LADY-SMITH—ROCKS FOUND—HYDROGRAPHICAL NOTES.

During the resurvey of Oyster harbour by H. M. S. "Egeria," Comr. J. F. Parry, R.N., the following dangers were found :

(a) A rock, with 6 feet over it at low water, ordinary springs, was found to the eastward of Coffin island. From this rock Coffin island lighthouse bears S. 61° W., distant $1\frac{3}{10}$ cables.

Another head with 12 feet over it was also found $\frac{6}{10}$ cable to the eastward of the above position, and on the edge of the danger line as shown on chart No. 714. From this danger Coffin island lighthouse bears S. 64° W., distant $1\frac{8}{10}$ cables.

(b) The "3 $\frac{1}{2}$ fathoms" referred to in notice to mariners No. 32 (72) of 1903, and shown on chart No. 714 as lying on the edge of the 20-fathom line, 2 $\frac{1}{2}$ cables S.W. of Coffin island, was found on examination to be the outer extreme of a narrow ridge extending from the reef off the point in Evening cove lying 3 cables N.W. of Sharp point. This ridge has depths of from 2 to 3 fathoms over it and from its extreme point Coffin island lighthouse bears N. 26° E., distant $2\frac{6}{10}$ cables.

(c) Off the west end of the western Twin island the 3 fathom line was found to extend into the anchorage $1\frac{3}{10}$ cables to the S.W. in the direction of the head of the coaling wharf on the opposite shore; the 5-fathom line extending $\frac{6}{10}$ cable farther in a similar direction. This extension is in the nature of a spit running off the above point. Vessels are cautioned against anchoring in this vicinity.

PRELIMINARY QUESTIONS OF LAW.

10. If it appear to the Board at any time that there is a question of law which it would be convenient to have decided before further proceeding with the case,

PRELIMINARY MEETING.

11. If it appear to the Board at any time before the hearing of the application that it would be advantageous to hold a preliminary meeting for the purpose of fixing or altering the place of hearing, determining the mode of conducting the inquiry, the admitting of certain facts or the proof of them by affidavit, or for any other purpose, the Board may hold such meeting upon such notice to the parties as it deems sufficient, and may thereupon make such order as it may deem expedient.

PRELIMINARY EXAMINATION WITH THE PARTIES.

12. The Board may, if it thinks fit, instead of holding the preliminary meeting, provided for in Rule 11, communicate with the parties direct, and may require answers to such inquiries as it may consider necessary.

PRODUCTION AND INSPECTION OF DOCUMENTS.

13. Either party shall be entitled, at any time, before or at the hearing of the case, to give notice in writing to the other party in whose application, or answer, or reply reference was made to any document, to produce it for the inspection of the party giving such notice, or his solicitor, and to permit him to take copies thereof; and any party not complying with such notice shall not afterwards be at liberty to put in such document in evidence on his behalf in said proceedings, unless he satisfy the Board that he had sufficient cause for not complying with such notice.

NOTICE TO ADMIT.

15. Either party may give to the other party a notice in writing to admit any documents, saving all just exceptions, and in case of neglect to admit, after such notice, the cost of proving such documents shall be paid by the party so neglecting or refusing, whatever the result of the application may be; unless, on the hearing, the Board certifies that the refusal to admit was reasonable; and no costs of proving any document shall be allowed, unless such notice be given, except where the omission to give the notice is, in the opinion of the Board, a saving of expense.

WITNESSES.

16. The attendance and examination of witnesses, the production and inspection of documents, shall be enforced in the same manner as is now enforced in a Superior Court of law; and the proceedings for that purpose shall be in the same form, *mutatis mutandis*, and they shall be sealed by the Secretary of the Board with the seal and may be served in any part of Canada. (Sec. 23.)

Witnesses shall be entitled, in the discretion of the Board, to be paid the fees and allowances prescribed by schedule No. 4, annexed hereto.

THE HEARING.

17. The witnesses at the hearing shall be examined *viva voce*; but the Board may, at any time, for sufficient reason, order that any particular facts may be proved by affidavit, or that the affidavit of any witnesses may be read at the hearing on such conditions as it may think reasonable; or that any witnesses whose attendance ought, for some sufficient reason, to be dispensed with, be examined before a Commissioner appointed by it for that purpose, who shall have authority to administer oaths, and before whom all parties shall attend. The evidence taken before such Commissioner shall be confined to the subject

matter in question, and any objection to the admission of such evidence shall be noted by the Commissioner and dealt with by the Board at the hearing. Such notice of the time and place of examination as is prescribed in the order shall be given to the adverse party. All examinations taken in pursuance of any of the provisions of this Act, or of these rules, shall be returned to the Court; and the depositions certified under the hands of the person or persons taking the same may, without further proof, be used in evidence, saving all just exceptions. The Board may require further evidence to be given either *viva voce* or by affidavit, or by deposition, taken before a Commissioner or other person appointed by it for that purpose.

The Board may, in any case when deemed advisable, require written briefs to be submitted by the parties.

The hearing of the case, when once commenced, shall proceed, so far as in the judgment of the Board may be practicable, from day to day.

JUDGMENT OF THE BOARD.

18. After hearing the case the Board may dismiss the application, or make an order thereon in favour of the respondents, or reserve its decision, or (subject to the right of appeal in the Act mentioned) make such other order upon the application as may be warranted by the evidence and may seem to it just.

The Board may give verbally or in writing the reasons for its decisions. A copy of the order made thereon shall be mailed or delivered to the respective parties. It shall not be necessary to hold a court merely for the purpose of giving decisions.

Any decision or order made by the Board under this Act may be made an order of the Exchequer Court, or a rule, order, or decree of any Superior Court of any Province of Canada, and shall be enforced in like manner as any rule, order, or decree of such court. 19. Any application to the Board to review, rescind, or vary any decision or order made by it shall be made within thirty days after the said decision or order shall have been communicated to the parties, unless the Board think fit to enlarge the time for making such application, or otherwise orders.

APPEAL.

20. If either party desire to appeal to the Supreme Court of Canada from the decision or order of the Board upon any question which, in the opinion of the Board, is a question of law, he shall give notice (c) thereof to the other party and to the Secretary, within fourteen days from the time when the decision or order appealed from was made, unless the Board allows further time, and shall in such notice state the grounds of the appeal. The costs of such application shall be in the discretion of the judge.

INTERLOCKING SYSTEM.

RULES FOR SIGNALS AND SPEED OF TRAINS WHERE STEAM RAILWAY CROSSES ANOTHER AT RAIL LEVEL.

When the signal on distant semaphore post indicates *caution*, a train passing it must be under *full control* and come to a *full stop* before reaching the home post.

When the signal on the home post indicates *danger*, it must *not be passed*.

When the signals on the distant and home posts indicate *safety*, the train can proceed.

When clear signals are shown the speed of passenger trains must be reduced to *twenty* miles and freight trains to *ten* miles per hour, until the entire train has passed the crossing.

GENERAL STATEMENTS

Applicable to Steam Railways for Interlocking, Derailing and Signals System at Crossings at Rail Level and at Junctions.

The plan and construction of interlocking, signaling and derailing system to be used at rail level crossings and junctions of one railway by another must be arranged to conform to the following general rules:—

1. The normal position of all signals must indicate *danger*, derail points open and the interlocking so arranged that it will be impossible for the operator to give conflicting signals.

2. The derail points must be placed not less than 500 feet from point of intersection of the crossing of junction tracks, unless in special cases in which the Board authorizes in writing a less distance.

3. On side tracks the position of derail points may be located so as to best accommodate the traffic, and provide the same measure of safety indicated in foregoing rules.

4. On single track railways derail points, when practicable, should be on inside of curve and on double track railways the derail points should be in outside rail of both tracks.

5. On double track railways back-up derails will be necessary.

6. Home signal posts must be 50 feet beyond point of derail, and the distance between home and distant signals must be not less than 1,200 feet. Signal post should be placed on engineman's side of track it governs.

7. Guard rails should be laid on outside of rail in which the derail is placed and commence at least 6 feet toward home signal from point of derail, extending from thence toward crossing, parallel with and 9 inches distant from track rail, for 400 feet.

8. In case there are crossovers, turnouts, or other connecting tracks involved in the general system, the movements of cars and trains upon which present an element of danger, which danger will be enhanced by the passage of trains on main tracks over crossings without stopping, and consequently at higher speed than would be the case without the permit sought, then, and in all such cases, whether such enhanced danger be of collision between cars and trains of the same railway, or between cars or trains of different railways, it will be necessary, in addition to the protection of the main crossing, to provide by proper appliances against any such increased collateral dangers in the same complete manner as is required in the case of the main crossing.

9. The arms and back lights of all signals should be visible to the signal-man in the tower. If from any cause the arm or light cannot be placed so as to be seen by the signal man, a repeater or indicator should be provided in the tower.

10. Application for inspection of interlocking plant must be made to the Board accompanied by a plain diagram, showing location of crossing and position of all main tracks, sidings, switches, turnouts, etc.

The several tracks must be indicated by letters or figures, and reference made to each, explaining the manner of its use. The rate of grade on each main track must be shown, together with numbers of signals, derails, locks, etc., corresponding to levers in tower.

It is intended herein to state general rules, which will govern the construction of any proposed system of interlocking. The traffic to be done, relative position and operation of intersecting lines, may require safeguards not mentioned herein.

The system of derailing, signalling, and interlocking must be connected and worked and be complete in each particular before the Board will grant an order authorizing the operation of such interlocking, derailing, and signal system or the crossing by the railway ordered to put on the system.

General Requirements for Interlocking at Drawbridges.

Interlocking, signaling, and derailing system to be used at drawbridges must be arranged to conform to the following general rules:—

1. The normal position of all signals must indicate *danger*, derail points open and the interlocking so arranged that it will be impossible for the operator to open the draw until signals and derails are set against the approaching train movement.

2. Where the grade is practically level the derailing points shall be located not less than 500 feet from the ends of the bridge, but, in case of a descending grade towards the bridge, the derailing point must be located at such distance from the bridge as to give the same measure of protection that is required for a level approach.

3. On single track railways, derail points, when practicable, should be on the inside of curve, and on double track railways, the derail points should be in outside rails of both tracks.

4. On double track railways back-up derails will be necessary.

5. Home signal posts must, when practicable, be located on the engineman's side of the track they govern, and should be not less than fifty (50) feet nor more than two hundred (200) feet in advance of the point they govern, the distant signals should be located

not less than twelve hundred (1200) feet in advance of the home signal, with which it operates and on the same side of the track. The distance signal should be distinguished by a notch cut in the end of the semaphore arm.

6. The arms and backlights of all signals should be visible to the signal-man in the tower. If from any cause, the arm or light of any signal cannot be placed so as to be seen by the signal-man, a repeater or indicator should be provided in the tower.

7. Guard rails should be laid on outside of rail in which the derail is placed, and, commencing at least 6 feet in advance of derail, should extend thence toward the end of bridge, parallel with and 9 inches from track rail, for not less than 400 feet.

8. Application for inspection must be made same as for railway crossings. 22-3

NEWFOUNDLAND.

(261) SOUTH COAST—BURGEO BANK—UNSUCCESSFUL SEARCH FOR 10-FATHOM PATCH.

Information has been received by the British Admiralty from Staff Captain W. H. Tooker, H. M. hired Surveying vessel *Ellinor*, that in June 1904 he made a prolonged examination of the Burgeo bank without obtaining any indications of the existence of the 10-fathom patch reported by the steamship *Lake Nepigon* in 1890, nor was the existence of such a patch known to the fishermen pursuing their industry in the locality. As the position of the *Lake Nepigon*, when this sounding was obtained, was somewhat doubtful, and as Burgeo islands were reported to have been seen

at the time, it is probable that, if a 10-fathom patch exists, it must be much closer inshore. The 10-fathom patch now shown on the Burgeo bank has accordingly been expunged from the Admiralty charts.

vez de toutes parts que les qualités dont j'ai parlé ont été amplement appréciées par la population de la Puissance.

4. Je constate aussi avec plaisir que les admirables qualités et services de la comtesse de Minto, ont été dûment appréciés par le parlement et le peuple du Canada.

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît au Gouverneur général en conseil, en vertu de l'autorité contenue dans le premier paragraphe de l'article six de l'Acte d'inspection des bateaux à vapeur, 1898, tel que modifié par l'article un du chapitre 38, de 1904, d'établir les règlements suivants pour l'inspection des bateaux à passagers mus par le gaz, un fluide, le naphthe, l'électricité ou tout pouvoir mécanique ou chimique, autre que la vapeur, et ils sont par le présent faits et prescrits, savoir:

COMMISSION DES CHEMINS DE FER POUR LE CANADA.

(Assemblée à Ottawa.)

Lundi, le 18e jour d'octobre, A.D. 1904.

La Commission, en vertu des dispositions de l'Acte des chemins de fer de 1903, établit par le présent les règles et règlements suivants :—

SÉANCES PUBLIQUES.

1. Les sessions générales de la Commission pour l'audition des causes contestées, seront tenues à sa salle d'audience à Ottawa, Ontario, aux dates et aux heures que la Commission désignera.

Lorsque des séances spéciales sont tenues à d'autres endroits, les annonces nécessaires seront données par la Commission.

INTERPRÉTATION.

2. Dans l'interprétation des présents règlements, et des formules qui y sont mentionnées, les mots comportant le nombre singulier comprendront le pluriel, et les mots comportant le pluriel comprendront le singulier ; et les termes suivants (s'ils ne sont incompatibles avec le contexte ou le sujet) auront les significations respectives qui leur sont plus loin attribuées, c'est-à-dire, "Requête" comprendra plainte en vertu du présent acte ; "Défendeur" signifiera la personne ou la compagnie qui est appelée à répondre à une requête ou plainte ; "Affidavit" comprendra affirmation, et "Frais" comprendra tous les honoraires et dépenses.

REQUÊTE OU PLAINTE.

3. Chaque procédure devant la Commission en vertu du présent acte commencera par une requête faite à la Commission par écrit et signée par le requérant, ou son solliciteur ; ou, dans le cas où une corporation ou compagnie est demanderesse, sera signée par son gérant, secrétaire ou solliciteur. Elle contiendra un exposé clair et concis des faits, les raisons de la demande, l'article de l'acte en vertu duquel elle est faite, et la nature de l'ordonnance demandée, ou le recours ou remède auquel le requérant prétend avoir droit. Elle sera divisée en paragraphes, chacun desquels, autant que possible, sera restreint à une partie distincte du sujet, et chaque paragraphe sera numéroté consécutivement. Elle portera à l'endos le nom et l'adresse du requérant, ou, s'il est représenté dans la cause par un solliciteur, le nom et l'adresse de ce solliciteur. La requête sera conforme à l'annexe No. 1.

La requête, ainsi écrite et signée comme susdit, sera laissée ou envoyée par la poste au Secrétaire de la Commission, accompagnée de tout document ou copies de toutes cartes, plans, profils, et livres de renvoi, selon que le prescrit l'acte, (a) qui y sont mentionnés, ou qui peuvent servir à l'expliquer ou l'appuyer. Le Secrétaire numérottera ces requêtes dans l'ordre de leur réception par lui, et en fera une liste. D'après cette liste il sera fait un rôle des causes à entendre, lesquelles, ainsi que l'ordre de leur inscription sur le rôle, seront réglées par la Commission. Ce rôle une fois complété sera affiché au tableau fourni à cette fin, et sera ouvert à l'inspection aux bureaux du Secrétaire durant les heures d'office.

RÉPONSE.

4. Sous dix jours de la signification de la demande, le défendeur ou les défendeurs enverront par la poste ou délivreront au demandeur, ou à son solliciteur, un

énoncé par écrit contenant dans une forme claire et concise leur réponse à la requête, et aussi en laisseront ou enverront par la poste une copie au Secrétaire de la Commission à son bureau, accompagnée de tous documents qui peuvent servir à l'expliquer ou à l'appuyer. La réponse peut admettre tous ou une partie des faits cités dans la requête. Elle sera divisée en paragraphes, numérotés consécutivement, et elle sera signée par la personne qui la fait, ou par son solliciteur. Elle portera à son endos le nom et l'adresse des défendeurs, ou s'ils sont représentés par un solliciteur dans l'affaire, le nom et l'adresse de ce solliciteur. Elle sera conforme à l'annexe No. 2.

RÉPLIQUE.

5. Sous quatre jours à compter de la délivrance de la réponse à la requête, le requérant enverra par la poste ou délivrera une réplique aux défendeurs, et une copie d'icelle au Secrétaire de la Commission, et peut objecter à la dite réponse comme étant insuffisante, énonçant les raisons de cette objection, ou peut nier les faits qui y sont cités, ou peut admettre tous ou une partie des faits. La réplique sera signée par le requérant ou son solliciteur, et peut être selon la formule No. 3 dans la dite annexe.

La Commission peut, en tout temps, exiger que toute ou partie de la requête, réponse, ou réplique soit appuyée d'un affidavit, en donnant un avis à cet effet à la partie de qui l'affidavit est requis ; et si on ne se conforme pas à cet avis, la requête, la réponse, ou la réplique peut être mise de côté, ou la partie d'icelle qui n'est pas vérifiée conformément à l'avis peut être rayée.

SUSPENSION DES PROCÉDURES.

6. La Commission peut exiger des parties d'autres renseignements, ou détails, ou documents, et peut suspendre toutes procédures formelles jusqu'à ce qu'elle soit satisfaite sous ce rapport.

Si la Commission, dans le cours des procédures, juge à propos de faire faire des enquêtes en vertu d'aucune des dispositions du présent acte, elle en donnera avis aux parties intéressées et peut arrêter les procédures ou aucune des procédures à ce sujet en conséquence.

AVIS.

7. Dans toutes les procédures en vertu du présent acte, dans lesquelles un avis est nécessaire, une copie ou des copies de la dite procédure, ou procédures, pour signification, porteront à l'endos un avis aux parties dans les formes d'endossement énoncées dans les annexes Nos. 1 et 2 ; et à défaut de comparution la Commission peut entendre et décider la demande *ex parte*.

Les endossements seront signés conformément aux dispositions de l'article 28.

La Commission peut prolonger ou abrégier les périodes fixées pour produire la réponse ou la réplique, ou pour entendre la requête, et dans ce cas la période sera écrite à l'endos de l'avis en conséquence.

Sauf dans les cas auxquels il est autrement pourvu, dix jours d'avis d'une requête à la Commission, ou d'une audition par elle, sont suffisants, à moins que la Commission ne prescrive un plus long avis. La Commission peut, dans tous les cas, permettre un avis de moins de dix jours, lequel sera aussi valable et suffisant que s'il eût été donné pendant dix jours ou plus. (Article 31.)

L'avis peut être donné ou signifié tel que prescrit par l'article 28 de l'acte.

Lorsque la Commission est autorisée à entendre une requête ou à rendre une ordonnance, sur avis donné aux parties intéressées, elle pourra, pour raison d'urgence ou pour toute autre raison qui lui paraîtra suffisant, nonobstant le défaut ou l'insuffisance de l'avis, rendre une ordonnance ou décision dans l'affaire tout comme si l'avis eût été régulièrement donné aux parties ; et cette ordonnance ou décision sera aussi valable et exécutoire à tous égards que si l'avis eût été régulier, mais toute personne ayant droit à un avis et à laquelle avis suffisant n'a pas été donné pourra, en tout temps dans les dix jours après avoir eu connaissance de cette ordonnance ou décision, ou dans tel délai plus long que la Commission lui accordera, demander à la Commission de changer, modifier ou rescinder cette ordonnance ou décision ; et la Commis-

sion devra alors, après tel avis aux autres parties intéressées qu'elle jugera à propos, entendre cette demande et modifier, changer ou rescinder cette ordonnance ou décision, ou renvoyer cette demande selon qu'il lui paraîtra juste et équitable. (Article 32.)

CAS DE CONSENTEMENT.

8. Les parties peuvent toujours, de consentement par écrit, avec l'approbation de la Commission, se dispenser de la forme de procédure y mentionnée, ou de quelque partie de cette procédure.

POUVOIR DE RÉGLER LES QUESTIONS DE FAIT.

9. Si en aucun temps il appert à la Commission que les énoncés dans la requête, ou la réponse ou la réplique ne font pas ressortir suffisamment les questions de fait en contestation entre les parties, elle peut leur donner ordre de préparer ces questions, et si les parties ne s'accordent pas, la Commission peut les régler.

QUESTIONS PRÉLIMINAIRES DE DROIT.

10. Si en aucun temps il appert à la Commission qu'il y a une question de droit qu'il conviendrait de décider avant de procéder avec la cause, elle peut ordonner que cette question soit soulevée pour son renseignement, soit au moyen d'un cas spécial ou de toute autre manière convenable, et la Commission peut, dans l'intervalle, ordonner que toute ou partie de la procédure devant la Commission, soit suspendue.

ASSEMBLÉE PRÉLIMINAIRE.

11. Si en aucun temps avant l'audition de la requête il appert à la Commission qu'il serait avantageux de tenir une assemblée préliminaire dans le but de fixer ou de changer le lieu d'audition, déterminer le mode de conduire l'enquête, d'admettre certains faits ou la preuve par affidavit, ou pour d'autre fin, la Commission peut tenir cette assemblée, après tel avis aux parties qu'elle jugera suffisant, et là-dessus rendre tel ordre qui sera jugé à propos.

EXAMEN PRÉLIMINAIRE AVEC LES PARTIES.

12. Au lieu de tenir l'assemblée préliminaire prescrite à la règle II, la Commission peut, si elle le juge bon, communiquer avec les parties directement et peut exiger des réponses aux questions qu'elle trouvera nécessaires.

PRODUCTION ET INSPECTION DE DOCUMENTS.

13. Chacune des parties a droit, en tout temps avant ou après l'audition de la cause, de donner avis par écrit à l'autre partie dont la requête, ou réponse, ou réplique réfère à quelque document, de produire ce document pour l'inspection de la partie qui donne l'avis, ou de son solliciteur, et de lui permettre d'en prendre des copies; et toute partie qui ne se conformera pas à cet avis ne sera plus désormais libre d'apporter ce document en preuve en sa faveur dans les dites procédures, à moins qu'elle ne démontre à la Commission qu'elle avait une raison suffisante pour ne pas se conformer à cet avis.

AVIS À PRODUIRE.

14. Chaque partie peut donner à l'autre un avis par écrit de produire les documents qui se rapportent à l'affaire en contestation (spécifiant quels documents) et qui sont en la possession ou contrôle de cette autre partie; et si cet avis n'est pas suivi, une preuve secondaire des dits documents peut être donnée par ou au nom de la partie qui a donné cet avis.

AVIS D'ADMETTRE.

15. Chaque partie peut donner à l'autre partie un avis par écrit d'admettre tous documents, sauf toutes justes exceptions, et dans le cas de négligence d'admettre, après cet avis, les frais de procurer ces documents seront payés par la partie négligeant ou refusant quel que soit le résultat de la demande; à moins, qu'à l'audition, la Commission ne certifie que le refus d'admettre était raisonnable; et il ne sera pas alloué de frais pour procurer aucun document, à moins que cet avis soit donné, sauf dans le cas où l'omission de donner l'avis est, de l'avis de la Commission, une économie de dépense.

TÉMOINS.

16. La présence et l'audition des témoins, la production et l'examen des documents, seront mis à exécution de la même manière que si la chose avait lieu dans une cour supérieure de loi; et les procédures à cette fin seront en la même forme, *mutatis mutandis* et elles seront scellées par le secrétaire de la Commission et peuvent être signifiées dans toute partie du Canada (Art. 23).

Les témoins auront droit, dans la discrétion de la Commission, de recevoir les honoraires et allocations prescrits par l'annexe Nc. 4 ci-jointe.

L'AUDITION.

17. Les témoins à l'audition seront examinés *viva voce*; mais la commission peut, en tout temps, pour raison suffisante, ordonner que certains faits particuliers soient prouvés par affidavit, ou que l'affidavit des témoins soit lu à l'audition aux conditions qu'elle jugera raisonnables; ou que tous témoins dont la présence pour quelque raison suffisante n'est pas nécessaire, soient examinés devant un commissaire nommé à cette fin, qui sera autorisé à faire prêter serment, et devant qui toutes les parties comparaitront. La preuve prise devant ce commissaire sera restreinte à la matière en question, et toute objection à l'admission de cette preuve sera notée par le commissaire et décidée par la Commission à l'audition. Avis du jour et de l'endroit de l'examen mentionné dans l'ordre sera donné à la partie adverse. Tous les examens pris en conformité des dispositions du présent acte, ou des présents règlements, seront renvoyés à la cour; et les dépositions certifiées sous le seing de la personne ou des personnes qui les ont reçues, peuvent sans autre preuve, servir à la preuve, sauf toutes justes exceptions. La Commission peut exiger qu'une autre preuve soit donnée soit *viva voce* ou par affidavit, ou par déposition, devant un commissaire ou autre personne nommée par elle à cette fin.

La Commission peut, chaque fois que la chose paraît désirable, exiger que des brefs écrits soient soumis par les parties.

L'audition de la cause, une fois commencée continuera de jour en jour, en tant que la Commission le jugera praticable.

JUGEMENT DE LA COMMISSION.

18. Après avoir entendu la cause la Commission peut rejeter la requête, ou rendre une ordonnance en faveur des défendeurs, ou réserver sa décision, ou (sujet au droit d'appel mentionné dans l'acte) rendre telle autre ordonnance sur la requête que justifiera la preuve, et lui paraîtra juste.

La Commission peut donner verbalement ou par écrit les raisons de ses décisions. Une copie de l'ordonnance rendue sera envoyée par la poste ou délivrée aux parties respectives. Il ne sera pas nécessaire de tenir une cour uniquement pour donner des décisions.

Toute décision ou ordonnance rendue par la Commission, sous l'autorité du présent acte, peut être déclarée ordonnance de la cour de l'Echiquier ou règle, ordonnance ou décret de toute cour supérieure de toute province du Canada, et pourra être exécutée de la même manière qu'une règle, une ordonnance ou un décret de ces cours. Pour faire de cette décision ou ordonnance une règle, une ordonnance ou un décret de ces cours, la pratique et la procédure de ces cours en ces matières pourront être suivies; ou bien, pour en tenir lieu, la formule prescrite par le paragraphe 2 de l'article 35 de l'acte.

La Commission aura, relativement à toutes matières nécessaires ou propres à l'exercice de sa juridiction sous l'autorité du présent acte, ou, d'autre part, à la mise à exécution de celui-ci, tous les pouvoirs, droits et privilèges qui appartiennent à une cour Supérieure (Art. 23.)

CHANGEMENT OU RESCISION DES ORDONNANCES.

19. Toute demande à la Commission de reviser, rescinder ou varier une décision ou un ordre déjà rendu, sera faite sous trente jours après que la dite décision ou ordre aura été communiqué aux parties, à moins que la Commission ne juge bon de proroger le délai pour faire cette demande ou n'en ordonne autrement.

APPEL.

20. Si une des parties désire interjeter appel à la cour Suprême du Canada de la décision ou ordre de la Commission sur une question qui, de l'avis de la Commission, est une question de droit, elle en donnera avis (c) à l'autre partie ou au secrétaire sous quatorze jour de la date où la décision ou ordre a été rendu, à moins que la Commission ne permette un plus long délai, et cet avis contiendra les raisons de l'appel. L'octroi de la permission d'appeler sera à la discrétion de la Commission.

Pour la procédure lorsque cette permission est obtenue, voir article 44, par. 4 et *seq* de l'acte.

Il y a appel des décisions de la Commission à la cour Suprême du Canada sur toute question de compétence, mais cet appel ne peut être interjeté que sur la permission d'un juge de la dite cour, après demande formulée à cet effet, et les parties et la Commission entendues.

Les frais de cette demande sont à la discrétion du juge.

ORDRES EX PARTE INTÉRIMAIRES.

21. Lorsque les circonstances spéciales d'une affaire paraissent l'exiger, la Commission peut rendre une ordonnance provisoire *ex parte*, autorisant, enjoignant ou défendant, de faire quelque chose que la Commission aurait la faculté, sur requête, avis et audition, d'autoriser, enjoindre ou défendre. Néanmoins, aucune ordonnance provisoire de ce genre ne sera rendue pour plus longtemps que la Commission ne jugera nécessaire pour permettre l'audition et la décision de l'affaire. (Art. 38.)

AFFIDAVIT.

22. Les affidavit de signification selon la formule No. 6 seront immédiatement après signification déposés au bureau de la Commission au sujet de tous documents ou avis exigés par les présents règlements ; sauf lorsque avis est donné ou signifié par le Secrétaire de la Commission, auquel cas l'affidavit de signification n'est pas nécessaire.

Toutes personnes autorisées à faire prêter serment pour servir dans aucune des cours supérieures d'une province, peut recevoir des affidavit relatifs à toute requête à la Commission.

Les affidavit employés devant la Commission, ou dans une procédure quelconque en vertu du présent acte, doivent être déposés au bureau du secrétaire de la Commission.

Lorsque des affidavit ont trait à quelque chose que l'on croit, les raisons sur lesquelles ils sont basés doivent être énoncées.

COMPUTATION DU TEMPS.

23. Chaque fois qu'un certain nombre de jours, non désignés comme jours pleins, est prescrit par le présent acte, ou par les présents règlements, ce nombre de jours sera compté exclusivement du premier jour et inclusivement du dernier jour, à moins que le dernier jour ne tombe un dimanche, le jour de Noël, ou le Vendredi-Saint, ou un jour fixé comme jeûne public ou d'actions de grâces dans le Dominion ou aucune des provinces, auquel cas le temps sera compté exclusivement de ce jour-là aussi.

AJOURNEMENT.

24. La Commission peut, de temps à autre, ajourner toutes procédures devant elle.

MODIFICATIONS.

25. La Commission peut, en tout temps, permettre que les procédures soient modifiées ou peut décréter que soient modifiées ou rayées toutes matières qui, de l'avis de la Commission, peut tendre à préjudicier, embarrasser ou retarder une juste audition de la cause au mérite ; et tous telles modifications seront faites selon que la Commission croira nécessaire pour entendre et déterminer la véritable question entre les parties.

(c) Pour la formule d'avis voir formule No. 5, dans l'annexe ci-jointe.

OBJECTIONS FORMELLES.

26. Nulles procédures en vertu du présent acte ne seront annulées ou affectées par aucunes objections techniques, ou aucunes objections basées sur les défauts de forme simplement.

PRATIQUE DE LA COUR DE L'EXCHIQUEUR QUAND APPLICABLE.

27. Dans toute cause non expressément prévue par l'acte ou les présents règlements, les principes généraux de pratique en la cour de l'Echiquier pourront être adoptées et appliquées à la discrétion de la Commission, aux procédures devant elle.

FRAIS.

28. Les frais encourus dans toutes procédures devant la Commission seront à la discrétion de la Commission, et peuvent être fixés en tout temps à une certaine somme, ou peuvent être taxés. La Commission peut décréter par qui et à qui ils seront payés et par qui ils seront taxés et accordés.

Les profils indiqueront les rampes, courbes, croisements de voies publiques ou de chemins de fer, drains découverts et cours d'eau, et pourront être mis à l'endos du plan même.

Les livres de renvoi décriront la partie de terrain qui devra être prise dans chaque lot traversé, donnant les numéros des lots et la superficie, la longueur et la largeur de la partie qui en sera prise, et les noms des

propriétaires et tenanciers en autant qu'on peut s'en assurer.

Tous les plans, profils et livres de renvoi seront datés et devront être certifiés et signés par le président ou le vice-président ou le gérant général, ainsi que par l'ingénieur de la compagnie.

Le plan et le profil que la Commission gardera devront être sur *toile*, et les copies qui seront remises pourront être blanches, bleues ou photographiques.

Partout où ce sera possible, les profils seront basés sur le niveau de la mer.

Tous les livres de renvoi seront faits de bon papier et sous la forme d'un livre avec un convert en papier convenable. La grandeur de ces livres, fermes, sera aussi près que possible de 7½ pouces par 7 pouces.

Le livre de renvoi pourra être mis à l'ends du plan.

SYSTÈME D'ENCLICHEMENT.

RÈGLEMENTS RELATIFS AUX SIGNAUX ET À LA VITESSE DES TRAINS AUX CROISEMENTS À NIVEAU DE DEUX CHEMINS DE FER À VAPEUR.

Quand le signal du sémaphore éloigné indique la *précaution*, tout train qui le dépasse doit être sous *contrôle parfait* et s'immobiliser avant d'atteindre le sémaphore d'arrivée.

Quand le signal du sémaphore d'arrivée indique le *danger*, il ne doit pas être dépassé.

Quand les signaux des sémaphores de départ et d'arrivée indiquent la *sûreté*, le train peut continuer.

Quand des signaux de *voie libre* sont montrés la vitesse des trains de voyageurs doit être réduite à *vingt* milles et celle des trains des marchandises à 10 milles à l'heure, jusqu'à ce que le train entier ait dépassé le croisement.

DIRECTIONS GÉNÉRALES

Applicables aux chemins de fer à vapeur pour système d'enclenchement, de déraillement et de signaux aux croisements à niveau et aux points de raccordement.

Le plan et la construction du système d'enclenchement pour la conjugaison d'aiguilles et de signaux et pour le déraillement qui sera employé aux croisements à niveau et aux points de raccordement d'un chemin de fer avec un autre devra être conforme aux règles générales suivantes :

1. La position normale de tous signaux doit indiquer le danger, les aiguilles de déraillement ouvertes et l'enclenchement arrangé de telle manière qu'il soit impossible au télégraphiste de donner des signaux contradictoires.

2. Les points de déraillement doivent être placés à 500 pieds au moins de l'intersection du croisement des voies raccordantes, sauf dans les cas spéciaux où la Commission, par écrit, autorise une moindre distance.

3. Sur les voies d'évitement les points de déraillement peuvent être placés de manière à accommoder le trafic et à procurer le même degré de sûreté que celui indiqué dans les règles qui précèdent.

4. Sur les chemins de fer à voie simple les points de déraillement, quand c'est possible, devraient être à l'intérieur de la courbe, et sur les chemins de fer à voie double les points de déraillement devraient être sur le rail extérieur des deux voies.

5. Sur les chemins de fer à voie double des points de déraillement de recul seront nécessaires.

6. Les sémaphores d'arrivée dépasseront le point de déraillement de 50 pieds, et la distance entre les signaux d'arrivée et de départ sera d'au moins 1,200 pieds. Le sémaphore devrait être placé du même côté de la voie qu'il marque que le mécanicien.

7. Un contre-rail devrait être posé à l'extérieur du rail dans lequel est placé l'appareil de déraillement et commencer à au moins six pieds du point de déraillement dans la direction du signal d'arrivée, s'étendant de là vers le croisement, parallèle au rail de la voie et éloignée de 9 pouces de ce rail, pour 400 pieds.

8. Là où il se trouve des traverses, des voies d'évitement ou autres rails de raccordement compris dans le système général, sur lesquels le mouvement des wa-

gons et des trains présente un élément de danger, danger qu'augmente encore le passage des trains sur la voie principale et les croisements sans arrêter, et conséquemment à une plus grande vitesse que s'il n'avait pas été obtenu de permis, alors et dans tous les cas de ce genre, soit que le danger plus grand provienne du risque de collision entre les wagons ou les trains du même chemin de fer, ou entre les wagons ou les trains de chemins de fer différents, il sera nécessaire, en plus de la protection du croisement principal, de se prémunir contre de tels autres dangers collatéraux par des appareils convenables de la même manière qu'il est requis pour le croisement principal.

9. Les bras et les feux postérieurs de tous les signaux devraient être visibles du signaliste dans la tour. Si, pour quelque raison, le bras ou le feu ne peut être placé de manière à être vu par le signaliste, un répétiteur ou indicateur devrait être installé dans la tour.

10. Il sera fait à la Commission une requête pour l'inspection du système d'enclenchement, accompagnée d'un simple diagramme montrant l'emplacement du croisement et la position de tous les principaux rails, des voies d'évitement, des aiguilles, des garages, etc.

Les diverses voies seront indiquées par des lettres ou des chiffres, et pour chacun d'elles il sera fait un renvoi où sera expliqué comment s'en servir. Le degré de déclivité sur chaque voie principale devra être indiqué, ainsi que les numéros des signaux, appareils de déraillement, enclenchements, etc., correspondant aux leviers dans la tour.

C'est l'intention de donner ici les règles générales qui gouverneront la construction de tout système d'enclenchement projeté. Le trafic qui se fera, la position relative et l'exploitation de lignes transversales pourront exiger des précautions dont il n'est pas fait mention ici.

Le système de déraillement, de signaux et d'enclenchement doit être agencé, opéré et complété dans tous ses détails avant que la Commission accorde une ordonnance autorisant l'emploi de ce système d'enclenchement, de déraillement et de signaux ou le croisement du chemin de fer qui a été autorisé à installer ce système.

Règles générales pour l'enclenchement aux ponts mobiles.

Le système d'enclenchement, de signaux et de déraillement employé aux ponts mobiles devra être agencé conformément aux règles générales suivantes :

1. La position normale de tous les signaux devra indiquer le danger, les points de déraillement ouverts et l'enclenchement agencé de telle manière qu'il sera impossible à l'opérateur d'ouvrir le pont-levis avant que les signaux et les points de déraillement s'opposent au mouvement du train approchant.

2. Où la pente est pratiquement nulle les points de déraillement seront placés à 500 pieds au moins des bouts du pont, mais dans le cas d'une pente descendante vers le pont, le point de déraillement doit être placé à une telle distance du pont qui assurera la même mesure de protection que celle requise pour une approche à niveau.

3. Sur les chemins de fer à voie simple les points de déraillement, si la chose est praticable, devront être à l'intérieur de la courbe et sur les chemins de fer à voie double, les points de déraillement devront être dans les rails extérieurs des deux voies.

4. Sur les chemins de fer à voie double des points de déraillement de recul seront nécessaires.

5. Les sémaphores d'arrivée, si possible, doivent être placés sur le même côté de la voie qu'ils marquent que le mécanicien et ne doivent pas être à moins de cinquante (50) pieds ni à plus de deux cents (200) pieds à l'avant du point qu'ils marquent ; les sémaphores de départ doivent être placés au moins 1,200 pieds à l'avance du signal d'arrivée avec lequel il fonctionne et du même côté de la voie. Le signal de départ devrait être indiqué par une encoche dans le bout du bras du sémaphore.

6. Les bras et feux postérieurs de tous les signaux devraient être visibles du signaliste dans la tour. Si, pour quelque raison, le bras ou le feu d'un signal ne peut être placé de manière à être vu du signaliste, un répétiteur ou indicateur devrait être installé dans la tour.

7. Un contre-rail devrait être posé à l'extérieur du rail dans lequel est placé l'appareil de déraillement et commencer à au moins six pieds avant le point de déraillement et s'étendre dans la direction du bout du pont, parallèle au rail de la voie et éloignée de 9 pouces de ce rail, pour 400 pieds.

8. La requête d'inspection sera faite comme pour les croisements de chemins de fer. 23-3

La balise antérieure repose sur le bord du fleuve, à environ $\frac{1}{2}$ mille en aval de l'église du village.

DOWNING STREET,

12th November, 1904.

My Lord,—I take the opportunity of the near approach of Your Excellency's departure to convey to you my thanks, and the thanks of His Majesty's Government, for the zeal and devotion with which you have discharged the duties of your high office.

2. The six years during which you have represented the Sovereign in Canada have been marked by events of great importance to the Dominion and to the Empire at large, including a war in which the military forces of the United Kingdom and Canada acted together in an Imperial cause. These years have also been marked by a splendid development in the prosperity and greatness of Canada; and His Majesty's Government have been glad to recognize that during this period the highest office in the Dominion has been held by one upon whose discretion, ability, and courageous sense of duty they could confidently rely on all occasions.

3. I learn with satisfaction, from the address presented to you by the Canadian Parliament, and the expressions of good-will and esteem which you are receiving from all quarters, that the qualities to which I have referred have been as fully appreciated by the people of the Dominion.

4. I also note with pleasure the appreciation of the admirable qualities and services of the Countess of Minto shewn by the Canadian Parliament and people.

I have, &c.,

ALFRED LYTTELTON.

Governor General,
His Excellency

The Earl of Minto, G.C.M.G.,

SUSPENSION OF PROCEEDINGS.

6. The Board may require further information, or particulars, or documents from the parties, and may suspend all formal proceedings until satisfied in this respect.

If the Board, at any stage of the proceedings, think fit to direct inquiries to be made under any of the provisions of this Act, it shall give notice thereof to the parties interested, and may stay proceedings or any part of the proceedings thereon accordingly.

The Board may enlarge or abridge the periods for putting in the answer or reply, and for hearing the application, and in that case the period shall be endorsed in the notice accordingly.

Except in any case where it is otherwise provided, ten days' notice of any application to the Board, or of any hearing by the Board, shall be sufficient; unless, in any case, the Board directs longer notice. The Board may, in any case, allow notice for any period less than ten days, which shall be sufficient notice as if given for ten days or longer. (Section 31.)

Notice may be given or served as provided by Section 28 of the Act.

When the Board is authorized to hear an application or make an order, upon notice to the parties interested, it may, upon the ground of urgency, or for other reason appearing to the Board to be sufficient, notwithstanding any want of or insufficiency in such notice, make the like order or decision in the matter as if due notice had been given to all parties; and such order or decision shall be as valid and take effect in all respects as if made on due notice; but any persons entitled to notice, and not sufficiently notified, may, at any time within ten days after becoming aware of such order or decision, or within such further time as the Board may allow, apply to the Board to vary, amend, or rescind such order or decision; and the Board shall thereupon, on such notice to all parties interested as it may in its discretion think desirable, hear such application, and either amend, alter, or rescind such order or decision, or dismiss the application, as may seem to it just and right. 8. In all cases the parties may, by consent in writing, with the approval of the Board, dispense with the form of proceedings herein mentioned, or some portion thereof.

9. If it appears to the Board at any time that the statements in the application, or answer, or reply do not sufficiently raise or disclose the issues of fact in dispute between the parties, it may direct them to prepare issues, and such issues shall, if the parties differ, be settled by the Board.

PRELIMINARY QUESTIONS OF LAW.

10. If it appear to the Board at any time that there is a question of law which it would be convenient to have decided before further proceeding with the case,

it may direct such question to be raised for its information, either by special case or in such other manner as it may deem expedient, and the Board may, pending such decision, order the whole or any portion of the proceeding before the Board in such matter, to be stayed.

PRELIMINARY MEETING.

11. If it appear to the Board at any time before the hearing of the application that it would be advantageous to hold a preliminary meeting for the purpose of fixing or altering the place of hearing, determining the mode of conducting the inquiry, the admitting of certain facts or the proof of them by affidavit, or for any other purpose, the Board may hold such meeting upon such notice to the parties as it deems sufficient, and may thereupon make such order as it may deem expedient.

PRELIMINARY EXAMINATION WITH THE PARTIES.

12. The Board may, if it thinks fit, instead of holding the preliminary meeting, provided for in Rule 11, communicate with the parties direct, and may require answers to such inquiries as it may consider necessary.

PRODUCTION AND INSPECTION OF DOCUMENTS.

13. Either party shall be entitled, at any time, before or at the hearing of the case, to give notice in writing to the other party in whose application, or answer, or reply reference was made to any document, to produce it for the inspection of the party giving such notice, or his solicitor, and to permit him to take copies thereof; and any party not complying with such notice shall not afterwards be at liberty to put in such document in evidence on his behalf in said proceedings, unless he satisfy the Board that he had sufficient cause for not complying with such notice.

NOTICE TO PRODUCE.

14. Either party may give to the other a notice in writing to produce such documents as relate to any matter in difference, (specifying the said documents) and which are in the possession or control of such other party; and if such notice be not complied with, secondary evidence of the contents of the said documents may be given by or on behalf of the party who gave such notice.

NOTICE TO ADMIT.

15. Either party may give to the other party a notice in writing to admit any documents, saving all just exceptions, and in case of neglect to admit, after such notice, the cost of proving such documents shall be paid by the party so neglecting or refusing, whatever the result of the application may be; unless, on the hearing, the Board certifies that the refusal to admit was reasonable; and no costs of proving any document shall be allowed, unless such notice be given, except where the omission to give the notice is, in the opinion of the Board, a saving of expense.

WITNESSES.

16. The attendance and examination of witnesses, the production and inspection of documents, shall be enforced in the same manner as is now enforced in a Superior Court of law; and the proceedings for that purpose shall be in the same form, *mutatis mutandis*, and they shall be sealed by the Secretary of the Board with the seal and may be served in any part of Canada. (Sec. 23.)

Witnesses shall be entitled, in the discretion of the Board, to be paid the fees and allowances prescribed by schedule No. 4, annexed hereto.

THE HEARING.

17. The witnesses at the hearing shall be examined *viva voce*; but the Board may, at any time, for sufficient reason, order that any particular facts may be proved by affidavit, or that the affidavit of any witnesses may be read at the hearing on such conditions as it may think reasonable; or that any witnesses whose attendance ought, for some sufficient reason, to be dispensed with, be examined before a Commissioner appointed by it for that purpose, who shall have authority to administer oaths, and before whom all parties shall attend. The evidence taken before such Commissioner shall be confined to the subject

matter in question, and any objection to the admission of such evidence shall be noted by the Commissioner and dealt with by the Board at the hearing. Such notice of the time and place of examination as is prescribed in the order shall be given to the adverse party. All examinations taken in pursuance of any of the provisions of this Act, or of these rules, shall be returned to the Court; and the depositions certified under the hands of the person or persons taking the same may, without further proof, be used in evidence, saving all just exceptions. The Board may require further evidence to be given either *viva voce* or by affidavit, or by deposition, taken before a Commissioner or other person appointed by it for that purpose.

The Board may, in any case when deemed advisable, require written briefs to be submitted by the parties.

The hearing of the case, when once commenced, shall proceed, so far as in the judgment of the Board may be practicable, from day to day.

JUDGMENT OF THE BOARD.

18. After hearing the case the Board may dismiss the application, or make an order thereon in favour of the respondents, or reserve its decision, or (subject to the right of appeal in the Act mentioned) make such other order upon the application as may be warranted by the evidence and may seem to it just.

The Board may give verbally or in writing the reasons for its decisions. A copy of the order made thereon shall be mailed or delivered to the respective parties. It shall not be necessary to hold a court merely for the purpose of giving decisions.

Any decision or order made by the Board under this Act may be made an order of the Exchequer Court, or a rule, order, or decree of any Superior Court of any Province of Canada, and shall be enforced in like manner as any rule, order, or decree of such court. To make such decision or order a rule, order or decree of such court, the usual practice and procedure of the court in such matters may be followed, or in lieu thereof the form prescribed in subsection 2, section 35 of the Act.

The Board shall with respect to all matters necessary or proper for the due exercise of its jurisdiction under this Act, or otherwise for carrying this Act into effect, have all such powers, rights, and privileges as are vested in a Superior Court. (Sec. 23.)

ALTERATION OR RESCINDING OF ORDERS.

19. Any application to the Board to review, rescind, or vary any decision or order made by it shall be made within thirty days after the said decision or order shall have been communicated to the parties, unless the Board think fit to enlarge the time for making such application, or otherwise orders.

APPEAL.

20. If either party desire to appeal to the Supreme Court of Canada from the decision or order of the Board upon any question which, in the opinion of the Board, is a question of law, he shall give notice (c) thereof to the other party and to the Secretary, within fourteen days from the time when the decision or order appealed from was made, unless the Board allows further time, and shall in such notice state the grounds of the appeal. The granting of such leave shall be in the discretion of the Board.

For procedure upon such leave being obtained see section 44, subsection 4, et seq. of the Act.

An appeal shall lie from the Board to the Supreme Court of Canada upon a question of jurisdiction; but such appeal shall not lie unless the same is allowed by a judge of the said Court upon application and hearing the parties and the Board.

The costs of such application shall be in the discretion of the judge.

INTERIM EX PARTE ORDERS.

21. Whenever the special circumstances of any case seem to so require, the Board may make an Interim *ex parte* Order requiring or forbidding anything to be done which the Board would be empowered upon

(c) For form of notice see form No. 5 in the schedule hereto.

application, notice, and hearing to authorize, require, or forbid. No such Interim Order shall, however, be made for a longer time than the Board may deem necessary to enable the matter to be heard and determined. (Sec. 38.)

22. Affidavits of service according to the form No. 6 shall forthwith, after service, be filed with the Board in respect of all documents or notices required to be served under these rules; except when notice is given or served by the Secretary of the Board, in which case no affidavit of service shall be necessary.

ADJOURNMENT.

24. The Board may, from time to time, adjourn any proceedings before it.

AMENDMENT.

25. The Board may at any time allow any of the proceedings to be amended, or may order to be amended or struck out any matters which, in the opinion of the Board, may tend to prejudice, embarrass, or delay a fair hearing of the case upon its merits; and all such amendments shall be made as may, in the opinion of the Board, be necessary for the purpose of hearing and determining the real question in issue between the parties.

FORMAL OBJECTIONS.

26. No proceedings under this Act shall be defeated or affected by any technical objections or any objections based upon defects in form merely.

INTERLOCKING SYSTEM.

RULES FOR SIGNALS AND SPEED OF TRAINS WHERE STEAM RAILWAY CROSSES ANOTHER AT RAIL LEVEL.

When the signal on distant semaphore post indicates *caution*, a train passing it must be under *full control* and come to a *full stop* before reaching the home post.

When the signal on the home post indicates *danger*, it must *not be passed*.

When the signals on the distant and home posts indicate *safety*, the train can proceed.

When clear signals are shown the speed of passenger trains must be reduced to *twenty miles* and freight trains to *ten miles* per hour, until the entire train has passed the crossing.

GENERAL STATEMENTS

Applicable to Steam Railways for Interlocking, Derailing and Signals System at Crossings at Rail Level and at Junctions.

The plan and construction of interlocking, signaling and derailing system to be used at rail level crossings and junctions of one railway by another must be arranged to conform to the following general rules—

1. The normal position of all signals must indicate *danger*, derail points open and the interlocking so arranged that it will be impossible for the operator to give conflicting signals.

2. The derail points must be placed not less than 500 feet from point of intersection of the crossing of junction tracks, unless in special cases in which the Board authorizes in writing a less distance.

3. On side tracks the position of derail points may be located so as to best accommodate the traffic, and provide the same measure of safety indicated in foregoing rules.

4. On single track railways derail points, when practicable, should be on inside of curve and on double track railways the derail points should be in outside rail of both tracks.

5. On double track railways back-up derails will be necessary.

6. Home signal posts must be 50 feet beyond point of derail, and the distance between home and distant signals must be not less than 1,200 feet. Signal post should be placed on engineman's side of track it governs.

7. Guard rails should be laid on outside of rail in which the derail is placed and commence at least 6 feet toward home signal from point of derail, extending from thence toward crossing, parallel with and 9 inches distant from track rail, for 400 feet.

8. In case there are crossovers, turnouts, or other connecting tracks involved in the general system, the movements of cars and trains upon which present an element of danger, which danger will be enhanced by the passage of trains on main tracks over crossings without stopping, and consequently at higher speed than would be the case without the permit sought, then, and in all such cases, whether such enhanced danger be of collision between cars and trains of the same railway, or between cars or trains of different railways, it will be necessary, in addition to the protection of the main crossing, to provide by proper appliances against any such increased collateral dangers in the same complete manner as is required in the case of the main crossing.

9. The arms and back lights of all signals should be visible to the signal-man in the tower. If from any cause the arm or light cannot be placed so as to be seen by the signal man, a repeater or indicator should be provided in the tower.

10. Application for inspection of interlocking plant must be made to the Board accompanied by a plain diagram, showing location of crossing and position of all main tracks, siding, switches, turnouts, etc.

The several tracks must be indicated by letters or figures, and reference made to each, explaining the manner of its use. The rate of grade on each main track must be shown, together with numbers of signals, details, locks, etc., corresponding to levers in tower.

It is intended herein to state general rules, which will govern the construction of any proposed system of interlocking. The traffic to be done, relative position and operation of intersecting lines, may require safeguards not mentioned herein.

The system of derailing, signalling, and interlocking must be connected and worked and be complete in each particular before the Board will grant an order authorizing the operation of such interlocking, derailing, and signal system or the crossing by the railway ordered to put on the system.

General Requirements for Interlocking at Drawbridges.

Interlocking, signaling, and derailing system to be used at drawbridges must be arranged to conform to the following general rules:—

1. The normal position of all signals must indicate *danger*, derail points open and the interlocking so arranged that it will be impossible for the operator to open the draw until signals and derails are set against the approaching train movement.

2. Where the grade is practically level the derailing points shall be located not less than 500 feet from the ends of the bridge, but, in case of a descending grade towards the bridge, the derailing point must be located at such distance from the bridge as to give the same measure of protection that is required for a level approach.

3. On single track railways, derail points, when practicable, should be on the inside of curve, and on double track railways, the derail points should be in outside rails of both tracks.

4. On double track railways back-up derails will be necessary.

5. Home signal posts must, when practicable, be located on the engineman's side of the track they govern, and should be not less than fifty (50) feet nor more than two hundred (200) feet in advance of the point they govern, the distant signals should be located

not less than twelve hundred (1200) feet in advance of the home signal, with which it operates and on the same side of the track. The distance signal should be distinguished by a notch cut in the end of the semaphore arm.

6. The arms and backlights of all signals should be visible to the signal-man in the tower. If from any cause, the arm or light of any signal cannot be placed so as to be seen by the signal-man, a repeater or indicator should be provided in the tower.

7. Guard rails should be laid on outside of rail in which the derail is placed, and, commencing at least 6 feet in advance of derail, should extend thence toward the end of bridge, parallel with and 9 inches from track rail, for not less than 400 feet.

8. Application for inspection must be made same as for railway crossings. 22-3

(282) OTTAWA RIVER—HEAD OF WAY SHOAL—DAY BEACONS ERECTED.

A hydrographic survey has been made of that portion of the Ottawa river extending from Besserers wharf to the foot of Pitrie island. It has been found that the shoalest water is located at the head of Way shoal, immediately below the mouth of the river Blanche. At this point the channel crosses from the middle of the river to the north shore.

To lead into the channel north of Way shoal two day beacons were established on the 25th October, 1904. They consist of whitewashed diamonds nailed to trees.

The front one stands on the north bank of the river, 2550 feet below the mouth of the river Blanche.

The back beacon stands 200 feet N. 48° E. from the front one.

The line of the beacons extended runs to the outer corner of Besserers wharf (now destroyed) and to the westernmost pine trees in Besserers grove.

Tugs coming down the river can keep the middle of the stream until they bring the beacons in one ahead. They should keep them in one, crossing the bar with 7 feet least water at extreme low water, until the dredging beacons are abeam, whence they should follow the north bank of the river, keeping 450 feet distant from it. (288) STRAIT OF GEORGIA—ACTIVE PASS—HYDROGRAPHICAL NOTES.

Commander J. F. Parry, R.N., H. M. Surveying ship "Egeria," reports the following notes, consequent upon the resurvey lately by him of Active pass :

(a) A rocky patch, having several heads with 5 feet over them at L. W. O. S., was found 1 $\frac{3}{10}$ cables off

shore in the bay on the Galiano island side of the southern entrance to the pass, from which pass Helen point bears S. 15° E 4 $\frac{1}{10}$ cables. Owing to the inaccuracy of the existing chart, other bearings cannot be laid down, but this shoal lies approximately in the position of the 17 fathoms shown in the centre of the bay, on chart No. 2840.

This danger is well marked by kelp in summer and autumn.

(b) A rocky head, having a depth of 18 feet over it at L. W. O. S., was found lying $\frac{7}{10}$ cable from the shore to the north of Helen point. From this head Helen point bears S. 20° W. 1 $\frac{3}{10}$ cables. There is deep water close to on the outer side of this danger. This is not marked by kelp.

(c) An examination of the shoals lying to the northward of Georgina point, a rocky head, with 5 feet over it at L. W. O. S., was found in the position of the 1 $\frac{1}{2}$ fathoms shown on chart No. 2840.

(d) The 7 fathoms shoal shown in the centre of the northern entrance to the pass, was found to lie about a cable farther to the westward, and has a least depth of 30 feet at L. W. O. S. over it.

From this 30 feet head, Active pass lighthouse bears S. 88° E., 5 $\frac{2}{10}$ cables. This shoal is usually plainly marked by heavy tide rips.

(e) Mary Anne point, the eastern extreme of Galiano island, and opposite Miners bay, bearing S. 9° W., is a good line for entering or leaving the northern end of the pass.

(f) The rock immediately to the northward of, and close under Helen point, shown on chart No. 2840, as drying 2 feet, dries 6 feet at L. W. O. S., and the rock of the opposite shore at Galiano island, shown as bearing N. 36° W. 3 $\frac{5}{10}$ cables from Helen point, dries 8 feet at L. W. O. S.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît au Gouverneur général en conseil, en vertu de l'autorité contenue dans le premier paragraphe de l'article six de l'Acte d'inspection des bateaux à vapeur, 1898, tel que modifié par l'article un du chapitre 38, de 1904, d'établir les règlements suivants pour l'inspection des bateaux à passagers mus par le gaz, un fluide, le naphthe, l'électricité ou tout pouvoir mécanique ou chimique, autre que la vapeur, et ils sont par le présent faits et prescrits, savoir :

Que le réservoir pour conserver le fluide soit fait de la meilleure manière possible, avec tous les joints rivetés et soudés, et d'une matière assez forte et épaisse pour laisser une marge pour la corrosion et être capable de supporter tout traitement qu'il a à subir, de façon à éviter tout coulage, et placé dans le bateau de manière à pouvoir être enlevé en tout temps si c'est nécessaire pour en permettre un examen parfait ; les tuyaux et les joints entre les réservoirs et la machine doivent être d'une construction et de matière qui seront une garantie contre le coulage sans avoir recours à l'emploi du caoutchouc ou autre matière semblable, et que la machinerie soit construite de façon à ce que la force motrice fonctionne bien quand le bateau est manœuvré. Les prescriptions de l'Acte d'inspection des bateaux à vapeur au sujet de la coque et des équipements des vapeurs à passagers doivent être remplies.

Il plaît en outre au Gouverneur général en conseil, en vertu de la même autoité, d'ordonner que la forme ci-jointe, marquée " formule A ", soit la formule adoptée pour délivrer des certificats d'inspection aux vaisseaux à passagers plus haut mentionnés.

COMMISSION DES CHEMINS DE FER POUR LE CANADA.

(Assemblée à Ottawa.)

Lundi, le 18e jour d'octobre, A.D. 1904.

La Commission, en vertu des dispositions de l'Acte des chemins de fer de 1903, établit par le présent les règles et règlements suivants :—

SÉANCES PUBLIQUES.

1. Les sessions générales de la Commission pour l'audition des causes contestées, seront tenues à sa salle d'audience à Ottawa, Ontario, aux dates et aux heures que la Commission désignera.

Lorsque des séances spéciales sont tenues à d'autres endroits, les annonces nécessaires seront données par la Commission.

INTERPRÉTATION.

2. Dans l'interprétation des présents règlements, et des formules qui y sont mentionnées, les mots comportant le nombre singulier comprendront le pluriel, et les mots comportant le pluriel comprendront le singulier ; et les termes suivants (s'ils ne sont incompatibles avec le contexte ou le sujet) auront les significations respectives qui leur sont plus loin attribuées, c'est-à-dire, "Requête" comprendra plainte en vertu du présent acte ; "Défendeur" signifiera la personne ou la compagnie qui est appelée à répondre à une requête ou plainte ; "Affidavit" comprendra affirmation, et "Frais" comprendra tous les honoraires et dépenses.

REQUÊTE OU PLAINTE.

3. Chaque procédure devant la Commission en vertu du présent acte commencera par une requête faite à la Commission par écrit et signée par le requérant, ou son solliciteur ; ou, dans le cas où une corporation ou compagnie est demanderesse, sera signée par son gérant, secrétaire ou solliciteur. Elle contiendra un exposé clair et concis des faits, les raisons de la demande, l'article de l'acte en vertu duquel elle est faite, et la nature de l'ordonnance demandée, ou le recours ou remède auquel le requérant prétend avoir droit. Elle sera divisée en paragraphes, chacun desquels, autant que possible, sera restreint à une partie distincte du sujet, et chaque paragraphe sera numéroté consécutivement. Elle portera à l'endos le nom et l'adresse du requérant, ou, s'il est représenté dans la cause par un solliciteur, le nom et l'adresse de ce solliciteur. La requête sera conforme à l'annexe No. 1.

La requête, ainsi écrite et signée comme susdit, sera laissée ou envoyée par la poste au Secrétaire de la Commission, accompagnée de tout document ou copies de toutes cartes, plans, profils, et livres de renvoi, selon que le prescrit l'acte, (a) qui y sont mentionnés, ou qui peuvent servir à l'expliquer ou l'appuyer. Le Secrétaire numérotera ces requêtes dans l'ordre de leur réception par lui, et en fera une liste. D'après cette liste il sera fait un rôle des causes à entendre, lesquelles, ainsi que l'ordre de leur inscription sur le rôle, seront réglées par la Commission. Ce rôle une fois complété sera affiché au tableau fourni à cette fin, et sera ouvert à l'inspection aux bureaux du Secrétaire durant les heures d'office.

RÉPONSE.

4. Sous dix jours de la signification de la demande, le défendeur ou les défendeurs enverront par la poste ou délivreront au demandeur, ou à son solliciteur, un

énoncé par écrit contenant dans une forme claire et concise leur réponse à la requête, et aussi en laisseront ou enverront par la poste une copie au Secrétaire de la Commission à son bureau, accompagnée de tous documents qui peuvent servir à l'expliquer ou à l'appuyer. La réponse peut admettre tous ou une partie des faits cités dans la requête. Elle sera divisée en paragraphes, numérotés consécutivement, et elle sera signée par la personne qui la fait, ou par son solliciteur. Elle portera à son endos le nom et l'adresse des défendeurs, ou s'ils sont représentés par un solliciteur dans l'affaire, le nom et l'adresse de ce solliciteur. Elle sera conforme à l'annexe No. 2.

RÉPLIQUE.

5. Sous quatre jours à compter de la délivrance de la réponse à la requête, le requérant enverra par la poste ou délivrera une réplique aux défendeurs, et une copie d'icelle au Secrétaire de la Commission, et peut objecter à la dite réponse comme étant insuffisante, énonçant les raisons de cette objection, ou peut nier les faits qui y sont cités, ou peut admettre tous ou une partie des faits. La réplique sera signée par le requérant ou son solliciteur, et peut être selon la formule No. 3 dans la dite annexe.

La Commission peut, en tout temps, exiger que toute ou partie de la requête, réponse, ou réplique soit appuyée d'un affidavit, en donnant un avis à cet effet à la partie de qui l'affidavit est requis ; et si on ne se conforme pas à cet avis, la requête, la réponse, ou la réplique peut être mise de côté, ou la partie d'icelle qui n'est pas vérifiée conformément à l'avis peut être rayée.

SUSPENSION DES PROCÉDURES.

6. La Commission peut exiger des parties d'autres renseignements, ou détails, ou documents, et peut suspendre toutes procédures formelles jusqu'à ce qu'elle soit satisfaite sous ce rapport.

Si la Commission, dans le cours des procédures, juge à propos de faire faire des enquêtes en vertu d'aucune des dispositions du présent acte, elle en donnera avis aux parties intéressées et peut arrêter les procédures ou aucune des procédures à ce sujet en conséquence.

AVIS.

7. Dans toutes les procédures en vertu du présent acte, dans lesquelles un avis est nécessaire, une copie ou des copies de la dite procédure, ou procédures, pour signification, porteront à l'endos un avis aux parties dans les formes d'endossement énoncées dans les annexes Nos. 1 et 2 ; et à défaut de comparution la Commission peut entendre et décider la demande *ex parte*.

Les endossements seront signés conformément aux dispositions de l'article 28.

La Commission peut prolonger ou abrégier les périodes fixées pour produire la réponse ou la réplique, ou pour entendre la requête, et dans ce cas la période sera écrite à l'endos de l'avis en conséquence.

Sauf dans les cas auxquels il est autrement pourvu, dix jours d'avis d'une requête à la Commission, ou d'une audition par elle, sont suffisants, à moins que la Commission ne prescrive un plus long avis. La Commission peut, dans tous les cas, permettre un avis de moins de dix jours, lequel sera aussi valable et suffisant que s'il eût été donné pendant dix jours ou plus. (Article 31.)

L'avis peut être donné ou signifié tel que prescrit par l'article 28 de l'acte.

Lorsque la Commission est autorisée à entendre une requête ou à rendre une ordonnance, sur avis donné aux parties intéressées, elle pourra, pour raison d'urgence ou pour toute autre raison qui lui paraîtra suffisante, nonobstant le défaut ou l'insuffisance de l'avis, rendre une ordonnance ou décision dans l'affaire tout comme si l'avis eût été régulièrement donné aux parties ; et cette ordonnance ou décision sera aussi valable et exécutoire à tous égards que si l'avis eût été régulier, mais toute personne ayant droit à un avis et à laquelle avis suffisant n'a pas été donné pourra, en tout temps dans les dix jours après avoir eu connaissance de cette ordonnance ou décision, ou dans tel délai plus long que la Commission lui accordera, demander à la Commission de changer, modifier ou rescinder cette ordonnance ou décision ; et la Commis-

sion devra alors, après tel avis aux autres parties intéressées qu'elle jugera à propos, entendre cette demande et modifier, changer ou rescinder cette ordonnance ou décision, ou renvoyer cette demande selon qu'il lui paraîtra juste et équitable. (Article 32.)

CAS DE CONSENTEMENT.

8. Les parties peuvent toujours, de consentement par écrit, avec l'approbation de la Commission, se dispenser de la forme de procédure y mentionnée, ou de quelque partie de cette procédure.

POUVOIR DE RÉGLER LES QUESTIONS DE FAIT.

9. Si en aucun temps il appert à la Commission que les énoncés dans la requête, ou la réponse ou la réplique ne font pas ressortir suffisamment les questions de fait en contestation entre les parties, elle peut leur donner ordre de préparer ces questions, et si les parties ne s'accordent pas, la Commission peut les régler.

QUESTIONS PRÉLIMINAIRES DE DROIT.

10. Si en aucun temps il appert à la Commission qu'il y a une question de droit qu'il conviendrait de décider avant de procéder avec la cause, elle peut ordonner que cette question soit soulevée pour son renseignement, soit au moyen d'un cas spécial ou de toute autre manière convenable, et la Commission peut, dans l'intervalle, ordonner que toute ou partie de la procédure devant la Commission, soit suspendue.

ASSEMBLÉE PRÉLIMINAIRE.

11. Si en aucun temps avant l'audition de la requête il appert à la Commission qu'il serait avantageux de tenir une assemblée préliminaire dans le but de fixer ou de changer le lieu d'audition, déterminer le mode de conduire l'enquête, d'admettre certains faits ou la preuve par affidavit, ou pour d'autre fin, la Commission peut tenir cette assemblée, après tel avis aux parties qu'elle jugera suffisant, et là-dessus rendre tel ordre qui sera jugé à propos.

EXAMEN PRÉLIMINAIRE AVEC LES PARTIES.

12. Au lieu de tenir l'assemblée préliminaire prescrit à la règle II, la Commission peut, si elle le juge bon, communiquer avec les parties directement et peut exiger des réponses aux questions qu'elle trouvera nécessaires.

PRODUCTION ET INSPECTION DE DOCUMENTS.

13. Chacune des parties a droit, en tout temps, avant ou après l'audition de la cause, de donner avis par écrit à l'autre partie dont la requête, ou réponse, ou réplique réfère à quelque document, de produire ce document pour l'inspection de la partie qui donne l'avis, ou de son solliciteur, et de lui permettre d'en prendre des copies; et toute partie qui ne se conformera pas à cet avis ne sera plus désormais libre d'apporter ce document en preuve en sa faveur dans les dites procédures, à moins qu'elle ne démontre à la Commission qu'elle avait une raison suffisante pour ne pas se conformer à cet avis.

AVIS À PRODUIRE.

14. Chaque partie peut donner à l'autre un avis par écrit de produire les documents qui se rapportent à l'affaire en contestation (spécifiant quels documents) et qui sont en la possession ou contrôle de cette autre partie; et si cet avis n'est pas suivi, une preuve secondaire des dits documents peut être donnée par ou au nom de la partie qui a donné cet avis.

AVIS D'ADMETTRE.

15. Chaque partie peut donner à l'autre partie un avis par écrit d'admettre tous documents, sauf toutes justes exceptions, et dans le cas de négligence d'admettre, après cet avis, les frais de procurer ces documents seront payés par la partie négligeant ou refusant quel que soit le résultat de la demande; à moins, qu'à l'audition, la Commission ne certifie que le refus d'admettre était raisonnable; et il ne sera pas alloué de frais pour procurer aucun document, à moins que cet avis soit donné, sauf dans le cas où l'omission de donner l'avis est, de l'avis de la Commission, une économie de dépense.

TÉMOINS.

16. La présence et l'audition des témoins, la production et l'examen des documents, seront mis à exécution de la même manière que si la chose avait lieu dans une cour supérieure de loi; et les procédures à cette fin seront en la même forme, *mutatis mutandis* et elles seront scellées par le secrétaire de la Commission et peuvent être signifiées dans toute partie du Canada (Art. 23).

Les témoins auront droit, dans la discrétion de la Commission, de recevoir les honoraires et allocations prescrits par l'annexe Nc. 4 ci-jointe.

L'AUDITION.

17. Les témoins à l'audition seront examinés *viva voce*; mais la commission peut, en tout temps, pour raison suffisante, ordonner que certains faits particuliers soient prouvés par affidavit, ou que l'affidavit des témoins soit lu à l'audition aux conditions qu'elle jugera raisonnables; ou que tous témoins dont la présence pour quelque raison suffisante n'est pas nécessaire, soient examinés devant un commissaire nommé à cette fin, qui sera autorisé à faire prêter serment, et devant qui toutes les parties comparaitront. La preuve prise devant ce commissaire sera restreinte à la matière en question, et toute objection à l'admission de cette preuve sera notée par le commissaire et décidée par la Commission à l'audition. Avis du jour et de l'endroit de l'examen mentionné dans l'ordre sera donné à la partie adverse. Tous les examens pris en conformité des dispositions du présent acte, ou des présents règlements, seront renvoyés à la cour; et les dépositions certifiées sous le seing de la personne ou des personnes qui les ont reçues, peuvent sans autre preuve, servir à la preuve, sauf toutes justes exceptions. La Commission peut exiger qu'une autre preuve soit donnée soit *viva voce* ou par affidavit, ou par déposition, devant un commissaire ou autre personne nommée par elle à cette fin.

La Commission peut, chaque fois que la chose paraît désirable, exiger que des brefs écrits soient soumis par les parties.

L'audition de la cause, une fois commencée continuera de jour en jour, en tant que la Commission le jugera praticable.

JUGEMENT DE LA COMMISSION.

18. Après avoir entendu la cause la Commission peut rejeter la requête, ou rendre une ordonnance en faveur des défendeurs, ou réserver sa décision, ou (sujet au droit d'appel mentionné dans l'acte) rendre telle autre ordonnance sur la requête que justifiera la preuve, et lui paraîtra juste.

La Commission peut donner verbalement ou par écrit les raisons de ses décisions. Une copie de l'ordonnance rendue sera envoyée par la poste ou délivrée aux parties respectives. Il ne sera pas nécessaire de tenir une cour uniquement pour donner des décisions.

Toute décision ou ordonnance rendue par la Commission, sous l'autorité du présent acte, peut être déclarée ordonnance de la cour de l'Echiquier ou règle, ordonnance ou décret de toute cour supérieure de toute province du Canada, et pourra être exécutée de la même manière qu'une règle, une ordonnance ou un décret de ces cours. Pour faire de cette décision ou ordonnance une règle, une ordonnance ou un décret de ces cours, la pratique et la procédure de ces cours en ces matières pourront être suivies; ou bien, pour en tenir lieu, la formule prescrite par le paragraphe 2 de l'article 35 de l'acte.

La Commission aura, relativement à toutes matières nécessaires ou propres à l'exercice de sa juridiction sous l'autorité du présent acte, ou, d'autre part, à la mise à exécution de celui-ci, tous les pouvoirs, droits et privilèges qui appartiennent à une cour Supérieure (Art. 23.)

CHANGEMENT OU RESCISION DES ORDONNANCES.

19. Toute demande à la Commission de reviser, rescinder ou varier une décision ou un ordre déjà rendu, sera faite sous trente jours après que la dite décision ou ordre aura été communiqué aux parties, à moins que la Commission ne juge bon de proroger le délai pour faire cette demande ou n'en ordonne autrement.

APPEL.

20. Si une des parties désire interjeter appel à la cour Suprême du Canada de la décision ou ordre de la Commission sur une question qui, de l'avis de la Commission, est une question de droit, elle en donnera avis (c) à l'autre partie ou au secrétaire sous quatorze jours de la date où la décision ou ordre a été rendu, à moins que la Commission ne permette un plus long délai, et cet avis contiendra les raisons de l'appel. L'octroi de la permission d'appeler sera à la discrétion de la Commission.

Pour la procédure lorsque cette permission est obtenue, voir article 44, par. 4 et seq de l'acte.

Il y a appel des décisions de la Commission à la cour Suprême du Canada sur toute question de compétence, mais cet appel ne peut être interjeté que sur la permission d'un juge de la dite cour, après demande formulée à cet effet, et les parties et la Commission entendues.

Les frais de cette demande sont à la discrétion du juge.

ORDRES EX PARTE INTÉRIMAIRES.

21. Lorsque les circonstances spéciales d'une affaire paraissent l'exiger, la Commission peut rendre une ordonnance provisoire *ex parte*, autorisant, enjoignant ou défendant, de faire quelque chose que la Commission aurait la faculté, sur requête, avis et audition, d'autoriser, enjoindre ou défendre. Néanmoins, aucune ordonnance provisoire de ce genre ne sera rendue pour plus longtemps que la Commission ne jugera nécessaire pour permettre l'audition et la décision de l'affaire. (Art. 38.)

AFFIDAVIT.

22. Les affidavit de signification selon la formule No. 6 seront immédiatement après signification déposés au bureau de la Commission au sujet de tous documents ou avis exigés par les présents règlements ; sauf lorsque avis est donné ou signifié par le Secrétaire de la Commission, auquel cas l'affidavit de signification n'est pas nécessaire.

Toutes personnes autorisées à faire prêter serment pour servir dans aucune des cours supérieures d'une province, peut recevoir des affidavit relatifs à toute requête à la Commission.

Les affidavit employés devant la Commission, ou dans une procédure quelconque en vertu du présent acte, doivent être déposés au bureau du secrétaire de la Commission.

Lorsque des affidavit ont trait à quelque chose que l'on croit, les raisons sur lesquelles ils sont basés doivent être énoncées.

COMPUTATION DU TEMPS.

23. Chaque fois qu'un certain nombre de jours, non désignés comme jours pleins, est prescrit par le présent acte, ou par les présents règlements, ce nombre de jours sera compté exclusivement du premier jour et inclusivement du dernier jour, à moins que le dernier jour ne tombe un dimanche, le jour de Noël, ou le Vendredi-Saint, ou un jour fixé comme jeûne public ou d'actions de grâces dans le Dominion ou aucune des provinces, auquel cas le temps sera compté exclusivement de ce jour-là aussi.

AJOURNEMENT.

24. La Commission peut, de temps à autre, ajourner toutes procédures devant elle.

MODIFICATIONS.

25. La Commission peut, en tout temps, permettre que les procédures soient modifiées ou peut décréter que soient modifiées ou rayées toutes matières qui, de l'avis de la Commission, peut tendre à préjudicier, embarrasser ou retarder une juste audition de la cause au mérite ; et tous telles modifications seront faites selon que la Commission croira nécessaire pour entendre et déterminer la véritable question entre les parties.

(c) Pour la formule d'avis voir formule No. 5, dans l'annexe ci-jointe.

OBJECTIONS FORMELLES.

26. Nulles procédures en vertu du présent acte ne seront annulées ou affectées par aucunes objections techniques, ou aucunes objections basées sur les défauts de forme simplement.

PRATIQUE DE LA COUR DE L'EXCHIQUEUR QUAND APPLICABLE.

27. Dans toute cause non expressément prévue par l'acte ou les présents règlements, les principes généraux de pratique en la cour de l'Exchiquier pourront être adoptées et appliquées à la discrétion de la Commission, aux procédures devant elle.

FRAIS.

28. Les frais encourus dans toutes procédures devant la Commission seront à la discrétion de la Commission, et peuvent être fixés en tout temps à une certaine somme, ou peuvent être taxés. La Commission peut décréter par qui et à qui ils seront payés et par qui ils seront taxés et accordés.

Les profils indiqueront les rampes, courbes, croisements de voies publiques ou de chemins de fer, drains découverts et cours d'eau, et pourront être mis à l'endos du plan même.

Les livres de renvoi décriront la partie de terrain qui devra être prise dans chaque lot traversé, donnant les numéros des lots et la superficie, la longueur et la largeur de la partie qui en sera prise, et les noms des

propriétaires et tenanciers en autant qu'on peut s'en assurer.

Tous les plans, profils et livres de renvoi seront datés et devront être certifiés et signés par le président ou le vice-président ou le gérant général, ainsi que par l'ingénieur de la compagnie.

Le plan et le profil que la Commission gardera devront être sur *toile*, et les copies qui seront remises pourront être blanches, bleues ou photographiques.

Partout où ce sera possible, les profils seront basés sur le niveau de la mer.

Tous les livres de renvoi seront faits de bon papier et sous la forme d'un livre avec un couvert en papier convenable. La grandeur de ces livres, fermés, sera aussi près que possible de $7\frac{1}{2}$ pouces par 7 pouces.

SYSTÈME D'ENCLÈCHEMENT.

RÈGLEMENTS RELATIFS AUX SIGNAUX ET À LA VITESSE DES TRAINS AUX CROISEMENTS À NIVEAU DE DEUX CHEMINS DE FER À VAPEUR.

Quand le signal du sémaphore éloigné indique la *précaution*, tout train qui le dépasse doit être sous *contrôle parfait* et s'*immobiliser* avant d'atteindre le sémaphore d'arrivée.

Quand le signal du sémaphore d'arrivée indique le *danger*, il ne doit pas être dépassé.

Quand les signaux des sémaphores de départ et d'arrivée indiquent la *sûreté*, le train peut continuer.

Quand des signaux de *voie libre* sont montrés la vitesse des trains de voyageurs doit être réduite à vingt milles et celle des trains des marchandises à 10 milles à l'heure, jusqu'à ce que le train entier ait dépassé le croisement.

DIRECTIONS GÉNÉRALES

Applicables aux chemins de fer à vapeur pour système d'enclenchement, de déraillement et de signaux aux croisements à niveau et aux points de raccordement.

Le plan et la construction du système d'enclenchement pour la conjugaison d'aiguilles et de signaux et pour le déraillement qui sera employé aux croisements à niveau et aux points de raccordement d'un chemin de fer avec un autre devra être conforme aux règles générales suivantes :

1. La position normale de tous signaux doit indiquer le danger, les aiguilles de déraillement ouvertes et l'enclenchement arrangé de telle manière qu'il soit impossible au télégraphiste de donner des signaux contradictoires.

2. Les points de déraillement doivent être placés à 500 pieds au moins de l'intersection du croisement des voies raccordantes, sauf dans les cas spéciaux où la Commission, par écrit, autorise une moindre distance.

3. Sur les voies d'évitement les points de déraillement peuvent être placés de manière à accommoder le trafic et à procurer le même degré de sûreté que celui indiqué dans les règles qui précèdent.

4. Sur les chemins de fer à voie simple les points de déraillement, quand c'est possible, devraient être à l'intérieur de la courbe, et sur les chemins de fer à voie double les points de déraillement devraient être sur le rail extérieur des deux voies.

5. Sur les chemins de fer à voie double des points de déraillement de recul seront nécessaires.

6. Les sémaphores d'arrivée dépasseront le point de déraillement de 50 pieds, et la distance entre les signaux d'arrivée et de départ sera d'au moins 1,200 pieds. Le sémaphore devrait être placé du même côté de la voie qu'il marque que le mécanicien.

7. Un contre rail devrait être posé à l'extérieur du rail dans lequel est placé l'appareil de déraillement et commencer à au moins six pieds du point de déraillement dans la direction du signal d'arrivée, s'étendant de là vers le croisement, parallèle au rail de la voie et éloignée de 9 pouces de ce rail, pour 400 pieds.

8. Là où il se trouve des traverses, des voies d'évitement ou autres rails de raccordement compris dans le système général, sur lesquels le mouvement des wa-

gons et des trains présente un élément de danger, danger qu'augmente encore le passage des trains sur la voie principale et les croisements sans arrêter, et conséquemment à une plus grande vitesse que s'il n'avait pas été obtenu de permis, alors et dans tous les cas de ce genre, soit que le danger plus grand provienne du risque de collision entre les wagons ou les trains du même chemin de fer, ou entre les wagons ou les trains de chemins de fer différents, il sera nécessaire, en plus de la protection du croisement principal, de se prémunir contre de tels autres dangers collatéraux par des appareils convenables de la même manière qu'il est requis pour le croisement principal.

9. Les bras et les feux postérieurs de tous les signaux devraient être visibles du signaliste dans la tour. Si, pour quelque raison, le bras ou le feu ne peut être placé de manière à être vu par le signaliste, un répétiteur ou indicateur devrait être installé dans la tour.

10. Il sera fait à la Commission une requête pour l'inspection du système d'enclenchement, accompagnée d'un simple diagramme montrant l'emplacement du croisement et la position de tous les principaux rails, des voies d'évitement, des aiguilles, des garages, etc.

Les diverses voies seront indiquées par des lettres ou des chiffres, et pour chacun d'elles il sera fait un renvoi où sera expliqué comment s'en servir. Le degré de déclivité sur chaque voie principale devra être indiqué, ainsi que les numéros des signaux, appareils de déraillement, enclenchements, etc., correspondant aux leviers dans la tour.

C'est l'intention de donner ici les règles générales qui gouverneront la construction de tout système d'enclenchement projeté. Le trafic qui se fera, la position relative et l'exploitation de lignes transversales pourront exiger des précautions dont il n'est pas fait mention ici.

Le système de déraillement, de signaux et d'enclenchement doit être agencé, opéré et complété dans tous ses détails avant que la Commission accorde une ordonnance autorisant l'emploi de ce système d'enclenchement, de déraillement et de signaux ou le croisement du chemin de fer qui a été autorisé à installer ce système.

Règles générales pour l'enclenchement aux ponts mobiles.

Le système d'enclenchement, de signaux et de déraillement employé aux ponts mobiles devra être agencé conformément aux règles générales suivantes :

1. La position normale de tous les signaux devra indiquer le danger, les points de déraillement ouverts et l'enclenchement agencé de telle manière qu'il sera impossible à l'opérateur d'ouvrir le pont-levi avant que les signaux et les points de déraillement s'opposent au mouvement du train approchant.

2. Où la pente est pratiquement nulle les points de déraillement seront placés à 500 pieds au moins des bouts du pont, mais dans le cas d'une pente descendante vers le pont, le point de déraillement doit être placé à une telle distance du pont qui assurera la même mesure de protection que celle requise pour une approche à niveau.

3. Sur les chemins de fer à voie simple les points de déraillement, si la chose est praticable, devront être à l'intérieur de la courbe et sur les chemins de fer à voie double, les points de déraillement devront être dans les rails extérieurs des deux voies.

4. Sur les chemins de fer à voie double des points de déraillement de recul seront nécessaires.

5. Les sémaphores d'arrivée, si possible, doivent être placés sur le même côté de la voie qu'ils marquent que le mécanicien et ne doivent pas être à moins de cinquante (50) pieds ni à plus de deux cents (200) pieds à l'avant du point qu'ils marquent ; les sémaphores de départ doivent être placés au moins 1,200 pieds à l'avance du signal d'arrivée avec lequel il fonctionne et du même côté de la voie. Le signal de départ devrait être indiqué par une encoche dans le bout du bras du sémaphore.

6. Les bras et feux postérieurs de tous les signaux devraient être visibles du signaliste dans la tour. Si, pour quelque raison, le bras ou le feu d'un signal ne peut être placé de manière à être vu du signaliste, un répétiteur ou indicateur devrait être installé dans la tour.

7. Un contre-rail devrait être posé à l'extérieur du rail dans lequel est placé l'appareil de déraillement et commencer à au moins six pieds avant le point de déraillement et s'étendre dans la direction du bout du pont, parallèle au rail de la voie et éloignée de 9 pouces de ce rail, pour 400 pieds.

8. La requête d'inspection sera faite comme pour les croisements de chemins de fer.

(314) LAKE SUPERIOR, NORTH SHORE—JACK FISH BAY—INFORMATION.

The officer in charge of the U. S. Branch Hydrographic office at Duluth reports under date of 1st November, 1904, that the following directions for Jack Fish bay, north shore of Lake Superior, were furnished by Captain J. B. Lyons, master of the steamer *Cumberland* :

Entering Jack Fish bay keep in the centre between the rocky island on the east side and point ending in cape Victoria, both of which objects are prominent and easily distinguished at a distance of 3 miles. If bound to the Canadian Pacific coal dock, which is situated immediately north of the island and runs in an east and west direction, direct the course to starboard as soon as well past the island, when the dock will be clearly seen, the machinery for unloading being on the south side of the dock, where 18 feet of water is found. The dock is 400 feet long. It is exposed to winds from a southerly direction, and sometimes vessels have to suspend unloading and seek shelter at the anchorage. There is not sufficient water on the north side of the dock for a loaded boat to moor if it is necessary when getting under way to break around the end of the dock. Care must be taken not to proceed too far inside on the north side, there being but 15 feet of water for a short distance from the end.

From the coal dock to the northwestward is Moberley bay, an inlet but imperfectly surveyed and dangerous to enter unless locally acquainted.

The anchorage is found by rounding the next point to northward of the island above mentioned and steering about northeast until Moberley bay closes, when come to in 6 to 8 fathoms of water in a land-locked harbour.

ONTARIO LIGHTHOUSE DIVISION.

(281) OTTAWA RIVER—LAKE OF TWO MOUNTAINS—GRAHAM—RANGE LIGHTS ESTABLISHED.

Range lights have been established by the Government of Canada at Graham, County of Vaudreuil, Province of Quebec, south side of the Lake of Two Mountains, Ottawa river.

At this place a wharf has been built for the accommodation of the markets boats, and a channel dredged from the deep water to the wharf, a distance of about 5,000 feet.

The lights are fixed red, shown from reflector lanterns hoisted on masts, and should be visible 3 miles in the line of range.

The outer range mast stands on the wharf, 22 feet from its south-east end, and in front of a storehouse painted grey.

Lat.	N.	45°	29'	0''
Long.	W.	74	12	24

The light is elevated 25 feet above the summer level of the river.

The mast is 20 feet high, and has attached to it a diamond-shaped slatted beacon 7 feet high by 6 feet wide, facing the channel, to make it more conspicuous as a day mark, the whole painted white.

The back range masts stands at the top of the river bank, 535 feet, S. 54° W. from the front one, and the light is elevated 41 feet above the summer level of the river.

The mast is 22 feet high, and has attached to it a diamond-shaped slatted beacon, 9 feet high by 7 feet wide, facing the channel, the whole painted white.

The lights in one, bearing S 54° W., lead in through the dredged channel to the wharf.

(282) OTTAWA RIVER—HEAD OF WAY SHOAL—DAY BEACONS ERECTED.

A hydrographic survey has been made of that portion of the Ottawa river extending from Besserers wharf to the foot of Pitrie island. It has been found that the shoalest water is located at the head of Way shoal, immediately below the mouth of the river Blanche. At this point the channel crosses from the middle of the river to the north shore.

To lead into the channel north of Way shoal two day beacons were established on the 25th October, 1904. They consist of whitewashed diamonds nailed to trees.

The front one stands on the north bank of the river, 2550 feet below the mouth of the river Blanche.

The back beacon stands 200 feet N. 48° E. from the front one.

The line of the beacons extended runs to the outer corner of Besserers wharf (now destroyed) and to the westernmost pine trees in Besserers grove.

Tugs coming down the river can keep the middle of the stream until they bring the beacons in one ahead. They should keep them in one, crossing the bar with 7 feet least water at extreme low water, until the dredging beacons are abeam, whence they should fol-

low the north bank of the river, keeping 450 feet distant from it. N. to M. No. 105 (282) 10-11-04.

Lat.	N.	44°	56'	55''
Long.	W.	76°	48'	2''

(288) STRAIT OF GEORGIA—ACTIVE PASS—HYDROGRAPHICAL NOTES.

Commander J. F. Parry, R.N., H. M. Surveying ship "Egeria," reports the following notes, consequent upon the resurvey lately by him of Active pass :

(a) A rocky patch, having several heads with 5 feet over them at L. W. O. S., was found $1\frac{3}{10}$ cables off shore in the bay on the Galiano island side of the southern entrance to the pass, from which pass Helen point bears S. 15° E $4\frac{1}{10}$ cables. Owing to the inaccuracy of the existing chart, other bearings cannot be laid down, but this shoal lies approximately in the

position of the 17 fathoms shown in the centre of the bay, on chart No. 2840.

This danger is well marked by kelp in summer and autumn.

(b) A rocky head, having a depth of 18 feet over it at L. W. O. S., was found lying $\frac{7}{10}$ cable from the shore to the north of Helen point. From this head Helen point bears S. 20° W. $1\frac{3}{10}$ cables. There is deep water close to on the outer side of this danger. This is not marked by kelp.

(c) An examination of the shoals lying to the northward of Georgina point, a rocky head, with 5 feet over it at L. W. O. S., was found in the position of the $1\frac{1}{2}$ fathoms shown on chart No. 2840.

(d) The 7 fathoms shoal shown in the centre of the northern entrance to the pass, was found to lie about a cable farther to the westward, and has a least depth of 30 feet at L. W. O. S. over it.

From this 30 feet head, Active pass lighthouse bears S. 88° E., $5\frac{2}{10}$ cables. This shoal is usually plainly marked by heavy tide rips.

(e) Mary Anne point, the eastern extreme of Galiano island, and opposite Miners bay, bearing S. 9° W., is a good line for entering or leaving the northern end of the pass.

(f) The rock immediately to the northward of, and close under Helen point, shown on chart No. 2840, as drying 2 feet, dries 6 feet at L. W. O. S., and the rock of the opposite shore at Galiano island, shown as bearing N. 36° W. $3\frac{1}{10}$ cables from Helen point, dries 8 feet at L. W. O. S.

Lundi, le 18e jour d'octobre, A.D. 1904.

La Commission, en vertu des dispositions de l'Acte des chemins de fer de 1903, établi par le présent les règles et règlements suivants :—

SÉANCES PUBLIQUES.

1. Les sessions générales de la Commission pour l'audition des causes contestées, seront tenues à sa salle d'audience à Ottawa, Ontario, aux dates et aux heures que la Commission désignera.

Lorsque des séances spéciales sont tenues à d'autres endroits, les annonces nécessaires seront données par la Commission.

2. Dans l'interprétation des présents règlements, et des formules qui y sont mentionnées, les mots comportant le nombre singulier comprendront le pluriel, et les mots comportant le pluriel comprendront le singulier ; et les termes suivants (s'ils ne sont incompatibles avec le contexte ou le sujet) auront les significations respectives qui leur sont plus loin attribuées, c'est-à-dire, "Requête" comprendra plainte en vertu du présent acte ; "Défendeur" signifiera la personne ou la compagnie qui est appelée à répondre à une requête ou plainte ; "Affidavit" comprendra affirmation, et "Frais" comprendra tous les honoraires et dépenses.

REQUÊTE OU PLAINTE.

3. Chaque procédure devant la Commission en vertu du présent acte commencera par une requête faite à la Commission par écrit et signée par le requérant, ou son solliciteur ; ou, dans le cas où une corporation ou compagnie est demanderesse, sera signée par son gérant, secrétaire ou solliciteur. Elle contiendra un exposé clair et concis des faits, les raisons de la demande, l'article de l'acte en vertu duquel elle est faite, et la nature de l'ordonnance demandée, ou le recours ou remède auquel le requérant prétend avoir droit. Elle sera divisée en paragraphes, chacun desquels, autant que possible, sera restreint à une partie distincte du sujet, et chaque paragraphe sera numéroté consécutivement. Elle portera à l'endos le nom et l'adresse du requérant, ou, s'il est représenté dans la cause par un solliciteur, le nom et l'adresse de ce solliciteur. La requête sera conforme à l'annexe No. 1.

La requête, ainsi écrite et signée comme susdit, sera laissée ou envoyée par la poste au Secrétaire de la Commission, accompagnée de tout document ou copies de toutes cartes, plans, profils, et livres de renvoi, selon que le prescrit l'acte, (a) qui y sont mentionnés, ou qui peuvent servir à l'expliquer ou l'appuyer. Le Secrétaire numérottera ces requêtes dans l'ordre de leur réception par lui, et en fera une liste. D'après cette liste il sera fait un rôle des causes à entendre, lesquelles, ainsi que l'ordre de leur inscription sur le rôle, seront réglées par la Commission. Ce rôle une fois complété sera affiché au tableau fourni à cette fin, et sera ouvert à l'inspection aux bureaux du Secrétaire durant les heures d'office.

RÉPONSE.

4. Sous dix jours de la signification de la demande, le défendeur ou les défendeurs enverront par la poste ou délivreront au demandeur, ou à son solliciteur, un énoncé par écrit contenant dans une forme claire et concise leur réponse à la requête, et aussi en laisseront

ou enverront par la poste une copie au Secrétaire de la Commission à son bureau, accompagnée de tous documents qui peuvent servir à l'expliquer ou à l'appuyer. La réponse peut admettre tous ou une partie des faits cités dans la requête. Elle sera divisée en paragraphes, numérotés consécutivement, et elle sera signée par la personne qui la fait, ou par son solliciteur. Elle portera à son endos le nom et l'adresse des défendeurs, ou s'ils sont représentés par un solliciteur dans l'affaire, le nom et l'adresse de ce solliciteur. Elle sera conforme à l'annexe No. 2.

RÉPLIQUE.

5. Sous quatre jours à compter de la délivrance de la réponse à la requête, le requérant enverra par la poste ou délivrera une réplique aux défendeurs, et une copie d'icelle au Secrétaire de la Commission, et peut objecter à la dite réponse comme étant insuffisante, énonçant les raisons de cette objection, ou peut nier les faits qui y sont cités, ou peut admettre tous ou une partie des faits. La réplique sera signée par le requérant ou son solliciteur, et peut être selon la formule No. 3 dans la dite annexe.

La Commission peut, en tout temps, exiger que toute ou partie de la requête, réponse, ou réplique soit appuyée d'un affidavit, en donnant un avis à cet effet à la partie de qui l'affidavit est requis ; et si on ne se conforme pas à cet avis, la requête, la réponse, ou la réplique peut être mise de côté, ou la partie d'icelle qui n'est pas vérifiée conformément à l'avis peut être rayée.

SUSPENSION DES PROCÉDURES.

6. La Commission peut exiger des parties d'autres renseignements, ou détails, ou documents, et peut suspendre toutes procédures formelles jusqu'à ce qu'elle soit satisfaite sous ce rapport.

Si la Commission, dans le cours des procédures, juge à propos de faire faire des enquêtes en vertu d'aucune des dispositions du présent acte, elle en donnera avis aux parties intéressées et peut arrêter les procédures ou aucune des procédures à ce sujet en conséquence.

AVIS.

7. Dans toutes les procédures en vertu du présent acte, dans lesquelles un avis est nécessaire, une copie ou des copies de la dite procédure, ou procédures, pour signification, porteront à l'endos un avis aux parties dans les formes d'endossement énoncées dans les annexes Nos. 1 et 2 ; et à défaut de comparution la Commission peut entendre et décider la demande *ex parte*.

Les endossements seront signés conformément aux dispositions de l'article 28.

La Commission peut prolonger ou abrégier les périodes fixées pour produire la réponse ou la réplique, ou pour entendre la requête, et dans ce cas la période sera écrite à l'endos de l'avis en conséquence.

Sauf dans les cas auxquels il est autrement pourvu, dix jours d'avis d'une requête à la Commission, ou d'une audition par elle, sont suffisants, à moins que la Commission ne prescrive un plus long avis. La Commission peut, dans tous les cas, permettre un avis de moins de dix jours, lequel sera aussi valable et suffisant que s'il eût été donné pendant dix jours ou plus. (Article 31.)

L'avis peut être donné ou signifié tel que prescrit par l'article 28 de l'acte.

Lorsque la Commission est autorisée à entendre une requête ou à rendre une ordonnance, sur avis donné aux parties intéressées, elle pourra, pour raison d'urgence ou pour toute autre raison qui lui paraîtra suffisant, nonobstant le défaut ou l'insuffisance de l'avis, rendre une ordonnance ou décision dans l'affaire tout comme si l'avis eût été régulièrement donné aux parties ; et cette ordonnance ou décision sera aussi valable et exécutoire à tous égards que si l'avis eût été régulier, mais toute personne ayant droit à un avis et à laquelle avis suffisant n'a pas été donné pourra, en tout temps dans les dix jours après avoir eu connaissance de cette ordonnance ou décision, ou dans tel délai plus long que la Commission lui accordera, demander à la Commission de changer, modifier ou rescinder cette ordonnance ou décision ; et la Commis-

sion devra alors, après tel avis aux autres parties intéressées qu'elle jugera à propos, entendre cette demande et modifier, changer ou rescinder cette ordonnance ou décision, ou renvoyer cette demande selon qu'il lui paraîtra juste et équitable. (Article 32.)

CAS DE CONSENTEMENT.

8. Les parties peuvent toujours, de consentement par écrit, avec l'approbation de la Commission, se dispenser de la forme de procédure y mentionnée, ou de quelque partie de cette procédure.

POUVOIR DE RÉGLER LES QUESTIONS DE FAIT.

9. Si en aucun temps il appert à la Commission que les énoncés dans la requête, ou la réponse ou la réplique ne font pas ressortir suffisamment les questions de fait en contestation entre les parties, elle peut leur donner ordre de préparer ces questions, et si les parties ne s'accordent pas, la Commission peut les régler.

QUESTIONS PRÉLIMINAIRES DE DROIT.

10. Si en aucun temps il appert à la Commission qu'il y a une question de droit qu'il conviendrait de décider avant de procéder avec la cause, elle peut ordonner que cette question soit soulevée pour son renseignement, soit au moyen d'un cas spécial ou de toute autre manière convenable, et la Commission peut, dans l'intervalle, ordonner que toute ou partie de la procédure devant la Commission, soit suspendue.

ASSEMBLÉE PRÉLIMINAIRE.

11. Si en aucun temps avant l'audition de la requête il appert à la Commission qu'il serait avantageux de tenir une assemblée préliminaire dans le but de fixer ou de changer le lieu d'audition, déterminer le mode de conduire l'enquête, d'admettre certains faits ou la preuve par affidavit, ou pour d'autre fin, la Commission peut tenir cette assemblée, après tel avis aux parties qu'elle jugera suffisant, et là-dessus rendre tel ordre qui sera jugé à propos.

EXAMEN PRÉLIMINAIRE AVEC LES PARTIES.

12. Au lieu de tenir l'assemblée préliminaire prescrit à la règle II, la Commission peut, si elle le juge bon, communiquer avec les parties directement et peut exiger des réponses aux questions qu'elle trouvera nécessaires.

PRODUCTION ET INSPECTION DE DOCUMENTS.

13. Chacune des parties a droit, en tout temps, avant ou après l'audition de la cause, de donner avis par écrit à l'autre partie dont la requête, ou réponse, ou réplique réfère à quelque document, de produire ce document pour l'inspection de la partie qui donne l'avis, ou de son solliciteur, et de lui permettre d'en prendre des copies; et toute partie qui ne se conformera pas à cet avis ne sera plus désormais libre d'apporter ce document en preuve en sa faveur dans les dites procédures, à moins qu'elle ne démontre à la Commission qu'elle avait une raison suffisante pour ne pas se conformer à cet avis.

AVIS À PRODUIRE.

14. Chaque partie peut donner à l'autre un avis par écrit de produire les documents qui se rapportent à l'affaire en contestation (spécifiant quels documents) et qui sont en la possession ou contrôle de cette autre partie; et si cet avis n'est pas suivi, une preuve secondaire des dits documents peut être donnée par ou au nom de la partie qui a donné cet avis.

AVIS D'ADMETTRE.

15. Chaque partie peut donner à l'autre partie un avis par écrit d'admettre tous documents, sauf toutes justes exceptions, et dans le cas de négligence d'admettre, après cet avis, les frais de procurer ces documents seront payés par la partie négligeant ou refusant quel que soit le résultat de la demande; à moins, qu'à l'audition, la Commission ne certifie que le refus d'admettre était raisonnable; et il ne sera pas alloué de frais pour procurer aucun document, à moins que cet avis soit donné, sauf dans le cas où l'omission de donner l'avis est, de l'avis de la Commission, une économie de dépense.

TÉMOINS.

16. La présence et l'audition des témoins, la production et l'examen des documents, seront mis à exécution de la même manière que si la chose avait lieu dans une cour supérieure de loi; et les procédures à cette fin seront en la même forme, *mutatis mutandis* et elles seront scellées par le secrétaire de la Commission et peuvent être signifiées dans toute partie du Canada (Art. 23).

Les témoins auront droit, dans la discrétion de la Commission, de recevoir les honoraires et allocations prescrits par l'annexe Nc. 4 ci-jointe.

L'AUDITION.

17. Les témoins à l'audition seront examinés *viva voce*; mais la commission peut, en tout temps, pour raison suffisante, ordonner que certains faits particuliers soient prouvés par affidavit, ou que l'affidavit des témoins soit lu à l'audition aux conditions qu'elle jugera raisonnables; ou que tous témoins dont la présence pour quelque raison suffisante n'est pas nécessaire, soient examinés devant un commissaire nommé à cette fin, qui sera autorisé à faire prêter serment, et devant qui toutes les parties comparaitront. La preuve prise devant ce commissaire sera restreinte à la matière en question, et toute objection à l'admission de cette preuve sera notée par le commissaire et décidée par la Commission à l'audition. Avis du jour et de l'endroit de l'examen mentionné dans l'ordre sera donné à la partie adverse. Tous les examens pris en conformité des dispositions du présent acte, ou des présents règlements, seront renvoyés à la cour; et les dépositions certifiées sous le seing de la personne ou des personnes qui les ont reçues, peuvent sans autre preuve, servir à la preuve, sauf toutes justes exceptions. La Commission peut exiger qu'une autre preuve soit donnée soit *viva voce* ou par affidavit, ou par déposition, devant un commissaire ou autre personne nommée par elle à cette fin.

La Commission peut, chaque fois que la chose paraît désirable, exiger que des brefs écrits soient soumis par les parties.

L'audition de la cause, une fois commencée continuera de jour en jour, en tant que la Commission le jugera praticable.

JUGEMENT DE LA COMMISSION.

18. Après avoir entendu la cause la Commission peut rejeter la requête, ou rendre une ordonnance en faveur des défendeurs, ou réserver sa décision, ou (sujet au droit d'appel mentionné dans l'acte) rendre telle autre ordonnance sur la requête que justifiera la preuve, et lui paraîtra juste.

La Commission peut donner verbalement ou par écrit les raisons de ses décisions. Une copie de l'ordonnance rendue sera envoyée par la poste ou délivrée aux parties respectives. Il ne sera pas nécessaire de tenir une cour uniquement pour donner des décisions.

Toute décision ou ordonnance rendue par la Commission, sous l'autorité du présent acte, peut être déclarée ordonnance de la cour de l'Echequier ou règle, ordonnance ou décret de toute cour supérieure de toute province du Canada, et pourra être exécutée de la même manière qu'une règle, une ordonnance ou un décret de ces cours. Pour faire de cette décision ou ordonnance une règle, une ordonnance ou un décret de ces cours, la pratique et la procédure de ces cours en ces matières pourront être suivies; ou bien, pour en tenir lieu, la formule prescrite par le paragraphe 2 de l'article 35 de l'acte.

La Commission aura, relativement à toutes matières nécessaires ou propres à l'exercice de sa juridiction sous l'autorité du présent acte, ou, d'autre part, à la mise à exécution de celui-ci, tous les pouvoirs, droits et privilèges qui appartiennent à une cour Supérieure (Art. 23.)

CHANGEMENT OU RESCISION DES ORDONNANCES.

19. Toute demande à la Commission de reviser, rescinder ou varier une décision ou un ordre déjà rendu, sera faite sous trente jours après que la dite décision ou ordre aura été communiqué aux parties, à moins que la Commission ne juge bon de proroger le délai pour faire cette demande ou n'en ordonne autrement.

APPEL.

20. Si une des parties désire interjeter appel à la cour Suprême du Canada de la décision ou ordre de la Commission sur une question qui, de l'avis de la Commission, est une question de droit, elle en donnera avis (c) à l'autre partie ou au secrétaire sous quatorze jours de la date où la décision ou ordre a été rendu, à moins que la Commission ne permette un plus long délai, et cet avis contiendra les raisons de l'appel. L'octroi de la permission d'appeler sera à la discrétion de la Commission.

Pour la procédure lorsque cette permission est obtenue, voir article 44, par. 4 et seq. de l'acte.

Il y a appel des décisions de la Commission à la cour Suprême du Canada sur toute question de compétence, mais cet appel ne peut être interjeté que sur la permission d'un juge de la dite cour, après demande formulée à cet effet, et les parties et la Commission entendues.

Les frais de cette demande sont à la discrétion du juge.

ORDRES EX PARTE INTÉRIMAIRES.

21. Lorsque les circonstances spéciales d'une affaire paraissent l'exiger, la Commission peut rendre une ordonnance provisoire *ex parte*, autorisant, enjoignant ou défendant, de faire quelque chose que la Commission aurait la faculté, sur requête, avis et audition, d'autoriser, enjoindre ou défendre. Néanmoins, aucune ordonnance provisoire de ce genre ne sera rendue pour plus longtemps que la Commission ne jugera nécessaire pour permettre l'audition et la décision de l'affaire. (Art. 38.)

AFFIDAVIT.

22. Les affidavit de signification selon la formule No. 6 seront immédiatement après signification déposés au bureau de la Commission au sujet de tous documents ou avis exigés par les présents règlements; sauf lorsque avis est donné ou signifié par le Secrétaire de la Commission, auquel cas l'affidavit de signification n'est pas nécessaire.

Toutes personnes autorisées à faire prêter serment pour servir dans aucune des cours supérieures d'une province, peut recevoir des affidavit relatifs à toute requête à la Commission.

Les affidavit employés devant la Commission, ou dans une procédure quelconque en vertu du présent acte, doivent être déposés au bureau du secrétaire de la Commission.

Lorsque des affidavit ont trait à quelque chose que l'on croit, les raisons sur lesquelles ils sont basés doivent être énoncées.

COMPUTATION DU TEMPS.

23. Chaque fois qu'un certain nombre de jours, non désignés comme jours pleins, est prescrit par le présent acte, ou par les présents règlements, ce nombre de jours sera compté exclusivement du premier jour et inclusivement du dernier jour, à moins que le dernier jour ne tombe un dimanche, le jour de Noël, ou le Vendredi-Saint, ou un jour fixé comme jeûne public ou d'actions de grâces dans le Dominion ou aucune des provinces, auquel cas le temps sera compté exclusivement de ce jour-là aussi.

AJOURNEMENT.

24. La Commission peut, de temps à autre, ajourner toutes procédures devant elle.

MODIFICATIONS.

25. La Commission peut, en tout temps, permettre que les procédures soient modifiées ou peut décréter que soient modifiées ou rayées toutes matières qui, de l'avis de la Commission, peut tendre à préjudicier, embarrasser ou retarder une juste audition de la cause au mérite; et tous telles modifications seront faites selon que la Commission croira nécessaire pour entendre et déterminer la véritable question entre les parties.

(c) Pour la formule d'avis voir formule No. 5, dans l'annexe ci-jointe.

OBJECTIONS FORMELLES.

26. Nulles procédures en vertu du présent acte ne seront annulées ou affectées par aucunes objections techniques, ou aucunes objections basées sur les défauts de forme simplement.

PRATIQUE DE LA COUR DE L'EXCHIQUEUR QUAND APPLICABLE.

27. Dans toute cause non expressément prévue par l'acte ou les présents règlements, les principes généraux de pratique en la cour de l'Echiquier pourront être adoptées et appliquées à la discrétion de la Commission, aux procédures devant elle.

FRAIS.

28. Les frais encourus dans toutes procédures devant la Commission seront à la discrétion de la Commission, et peuvent être fixés en tout temps à une certaine somme, ou peuvent être taxés. La Commission peut décréter par qui et à qui ils seront payés et par qui ils seront taxés et accordés.

Les profils indiqueront les rampes, courbes, croisements de voies publiques ou de chemins de fer, drains découverts et cours d'eau, et pourront être mis à l'ends du plan même.

Les livres de renvoi décriront la partie de terrain qui devra être prise dans chaque lot traversé, donnant les numéros des lots et la superficie, la longueur et la largeur de la partie qui en sera prise, et les noms des

propriétaires et tenanciers en autant qu'on peut s'en assurer.

Tous les plans, profils et livres de renvoi seront datés et devront être certifiés et signés par le président ou le vice-président ou le gérant général, ainsi que par l'ingénieur de la compagnie.

Le plan et le profil que la Commission gardera devront être sur *toile*, et les copies qui seront remises pourront être blanches, bleues ou photographiques.

Partout où ce sera possible, les profils seront basés sur le niveau de la mer.

Tous les livres de renvoi seront faits de bon papier et sous la forme d'un livre avec un couvert en papier convenable. La grandeur de ces livres, fermés, sera aussi près que possible de $7\frac{1}{2}$ pouces par 7 pouces.

SYSTÈME D'ENCLENCHEMENT.

RÈGLEMENTS RELATIFS AUX SIGNAUX ET À LA VITESSE DES TRAINS AUX CROISEMENTS À NIVEAU DE DEUX CHEMINS DE FER À VAPEUR.

Quand le signal du sémaphore éloigné indique la *précaution*, tout train qui le dépasse doit être sous *contrôle parfait* et s'immobiliser avant d'atteindre le sémaphore d'arrivée.

Quand le signal du sémaphore d'arrivée indique le *danger*, il ne doit pas être dépassé.

Quand les signaux des sémaphore de départ et d'arrivée indiquent la *sûreté*, le train peut continuer.

Quand des signaux de *voie libre* sont montrés la vitesse des trains de voyageurs doit être réduite à vingt milles et celle des trains des marchandises à 10 milles à l'heure, jusqu'à ce que le train entier ait dépassé le croisement.

DIRECTIONS GÉNÉRALES

Applicables aux chemins de fer à vapeur pour système d'enclenchement, de déraillement et de signaux aux croisements à niveau et aux points de raccordement.

Le plan et la construction du système d'enclenchement pour la conjugaison d'aiguilles et de signaux et pour le déraillement qui sera employé aux croisements à niveau et aux points de raccordement d'un chemin de fer avec un autre devra être conforme aux règles générales suivantes :

1. La position normale de tous signaux doit indiquer le danger, les aiguilles de déraillement ouvertes et l'enclenchement arrangé de telle manière qu'il soit impossible au télégraphiste de donner des signaux contradictoires.

2. Les points de déraillement doivent être placés à 500 pieds au moins de l'intersection du croisement des voies raccordantes, sauf dans les cas spéciaux où la Commission, par écrit, autorise une moindre distance.

3. Sur les voies d'évitement les points de déraillement peuvent être placés de manière à accommoder le trafic et à procurer le même degré de sûreté que celui indiqué dans les règles qui précèdent.

4. Sur les chemins de fer à voie simple les points de déraillement, quand c'est possible, devraient être à l'intérieur de la courbe, et sur les chemins de fer à voie double les points de déraillement devraient être sur le rail extérieur des deux voies.

5. Sur les chemins de fer à voie double des points de déraillement de recul seront nécessaires.

6. Les sémaphores d'arrivée dépasseront le point de déraillement de 50 pieds, et la distance entre les signaux d'arrivée et de départ sera d'au moins 1,200 pieds. Le sémaphore devrait être placé du même côté de la voie qu'il marque que le mécanicien.

7. Un contre-rail devrait être posé à l'extérieur du rail dans lequel est placé l'appareil de déraillement et commencer à au moins six pieds du point de déraillement dans la direction du signal d'arrivée, s'étendant de là vers le croisement, parallèle au rail de la voie et éloignée de 9 pouces de ce rail, pour 400 pieds.

8. Là où il se trouve des traverses, des voies d'évitement ou autres rails de raccordement compris dans le système général, sur lesquels le mouvement des wa-

gons et des trains présente un élément de danger, danger qu'augmente encore le passage des trains sur la voie principale et les croisements sans arrêter, et conséquemment à une plus grande vitesse que s'il n'avait pas été obtenu de permis, alors et dans tous les cas de ce genre, soit que le danger plus grand provienne du risque de collision entre les wagons ou les trains du même chemin de fer, ou entre les wagons ou les trains de chemins de fer différents, il sera nécessaire, en plus de la protection du croisement principal, de se prémunir contre de tels autres dangers collatéraux par des appareils convenables de la même manière qu'il est requis pour le croisement principal.

9. Les bras et les feux postérieurs de tous les signaux devraient être visibles du signaliste dans la tour. Si, pour quelque raison, le bras ou le feu ne peut être placé de manière à être vu par le signaliste, un répétiteur ou indicateur devrait être installé dans la tour.

10. Il sera fait à la Commission une requête pour l'inspection du système d'enclenchement, accompagnée d'un simple diagramme montrant l'emplacement du croisement et la position de tous les principaux rails, des voies d'évitement, des aiguilles, des garages, etc.

Les diverses voies seront indiquées par des lettres ou des chiffres, et pour chacun d'elles il sera fait un renvoi où sera expliqué comment s'en servir. Le degré de déclivité sur chaque voie principale devra être indiqué, ainsi que les numéros des signaux, appareils de déraillement, enclenchements, etc., correspondant aux leviers dans la tour.

C'est l'intention de donner ici les règles générales qui gouverneront la construction de tout système d'enclenchement projeté. Le trafic qui se fera, la position relative et l'exploitation de lignes transversales pourront exiger des précautions dont il n'est pas fait mention ici.

Le système de déraillement, de signaux et d'enclenchement doit être agencé, opéré et complété dans tous ses détails avant que la Commission accorde une ordonnance autorisant l'emploi de ce système d'enclenchement, de déraillement et de signaux ou le croisement du chemin de fer qui a été autorisé à installer ce système.

Règles générales pour l'enclenchement aux ponts mobiles.

Le système d'enclenchement, de signaux et de déraillement employé aux ponts mobiles devra être agencé conformément aux règles générales suivantes :

1. La position normale de tous les signaux devra indiquer le danger, les points de déraillement ouverts et l'enclenchement agencé de telle manière qu'il sera impossible à l'opérateur d'ouvrir le pont-levis avant que les signaux et les points de déraillement s'opposent au mouvement du train approchant.

2. Où la pente est pratiquement nulle les points de déraillement seront placés à 500 pieds au moins des bouts du pont, mais dans le cas d'une pente descendante vers le pont, le point de déraillement doit être placé à une telle distance du pont qui assurera la même mesure de protection que celle requise pour une approche à niveau.

3. Sur les chemins de fer à voie simple les points de déraillement, si la chose est praticable, devront être à l'intérieur de la courbe et sur les chemins de fer à voie double, les points de déraillement devront être dans les rails extérieurs des deux voies.

4. Sur les chemins de fer à voie double des points de déraillement de recul seront nécessaires.

5. Les sémaphores d'arrivée, si possible, doivent être placés sur le même côté de la voie qu'ils marquent que le mécanicien et ne doivent pas être à moins de cinquante (50) pieds ni à plus de deux cents (200) pieds à l'avant du point qu'ils marquent ; les sémaphores de départ doivent être placés au moins 1,200 pieds à l'avance du signal d'arrivée avec lequel il fonctionne et du même côté de la voie. Le signal de départ devrait être indiqué par une encoche dans le bout du bras du sémaphore.

6. Les bras et feux postérieurs de tous les signaux devraient être visibles du signaliste dans la tour. Si, pour quelque raison, le bras ou le feu d'un signal ne peut être placé de manière à être vu du signaliste, un répétiteur ou indicateur devrait être installé dans la tour.

7. Un contre-rail devrait être posé à l'extérieur du rail dans lequel est placé l'appareil de déraillement et commencer à au moins six pieds avant le point de déraillement et s'étendre dans la direction du bout du pont, parallèle au rail de la voie et éloignée de 9 pouces de ce rail, pour 400 pieds.
